BUDGET IMPLEMENTATION REVIEW REPORT**

**FOR THE FINANCIAL YEAR
2023/24**

FOREWORD

The FY 2023/24 County Governments Budget Implementation Review Report (CBIRR) provides information on the budget performance of the forty-seven County Governments by analysing receipts into the County Revenue Fund, exchequer issues, expenditure, absorption of funds against approved budget and outlining the key issues that impeded budget implementation during the period. It also provides recommendations to address the issues. It has been prepared per Article 228 (6) of the Constitution, which requires the Controller of Budget to submit to each House of Parliament a report on the implementation of the budgets of the National and County Governments every four months.

The report is also prepared in conformity with Section 9 of the Controller of Budget Act, 2016, which prescribes the content of the budget implementation reports. It is one of the mediums the Controller of Budget uses to publicise information on budget implementation at the County Government level in line with Section 39 (8) of the Public Finance Management Act, 2012. It is based on reviewing financial and non-financial reports submitted to Controller of Budget under Sections 166 and 168 of the Public Finance Management, data extracted from the Integrated Financial Management Information System and the approved budgets for FY 2023/2024. It is further enhanced by continuous monitoring of budget implementation by the Office of the Controller of Budget.

This report will be helpful to the Legislature and Executive arms of the County Governments and the public in creating awareness of budget implementation and improving the management of public funds. I call upon the public and other stakeholders in the public finance management space to use this report to interrogate county governments' use of public funds.

The preparation of this report was made possible through the efforts and devotion to duty of both Controller of Budget and County Governments staff, whom I acknowledge and greatly appreciate.

EXECUTIVE SUMMARY

This is the Annual County Budget Implementation Review Report (CBIRR) for FY 2023/24, which covers July 2023 to June 2024. The report is prepared in compliance with Article 228(6) of the Constitution of Kenya, 2010 and Section 9 of the Controller of Budget Act, 2016. It assesses the budget implementation status of each of the 47 County Governments during the review period through analyses of revenue and expenditure performance while highlighting the challenges faced during budget implementation in the period under review. It offers recommendations to address them moving forward.

The combined County governments' budgets approved by the County Assemblies in FY 2023/24 amounted to Kshs.562.75 billion, with Kshs.189.93 billion (33.8 per cent) being allocated to development expenditure and Kshs.372.82 billion (66.2 per cent) allocated to recurrent expenditure. The allocation for development expenditure complied with the requirement of allocating at least 30 per cent of the budget to development expenditure as stipulated by the PFM Act, 2012.

To finance the FY 2023/24 budget, the County Governments expected to receive Kshs.385.42 billion as the equitable share of revenue raised nationally, receive Kshs.46.36 billion as additional allocations/conditional grants from the National Government and Development Partners, raise Kshs.80.94 billion from ordinary own sources of revenue and Facility Improvement Fund (FIF)/Appropriation in Aid (A-I-A), utilise Kshs.42.96 billion of unspent funds carried forward from FY 2022/23 and utilise Kshs.7.07 billion balances in their Special Purpose Accounts.

The total available funds to the forty-seven County governments in FY 2023/24 amounted to Kshs.492.47 billion. This comprised Kshs.354.59 billion as the equitable share of revenue raised nationally, Kshs.35.97 billion received as additional allocations/conditional grants disbursements from various Development Partners, Kshs.42.96 billion in cash balances from FY 2022/23, and Kshs.58.95 billion mobilized from own-source revenue streams.

In the FY 2023/24, the County Governments managed to raise Kshs.58.95 billion from local revenue sources, which accounted for 72.8 per cent of the cumulative annual local revenue target of Kshs.80.94 billion. This represented an increase of 55.9 per cent compared to the Kshs.37.81 billion reported in FY 2022/23. Counties that outperformed their annual revenue targets included Turkana at 241.2 per cent, Vihiga at 136.3 per cent, Kirinyaga at 118.4 per cent, Lamu at 116.2 per cent, Nandi at 113 per cent, Wajir at 110 per cent, Garissa at 108.2 per cent, Nyeri at 106.1 per cent, Samburu at 104.1 per cent, and Murang'a at 100.2 per cent. On the other hand, the Counties that recorded the lowest performance of their own source revenue included Nyandarua at 42.1 per cent, Machakos at 46.5 per cent, Mandera at 50.8 per cent, Nyamira at 53.8 per cent, Bungoma at 55.8 per cent, Kajiado at 56.1 per cent, and Busia at 56.9 per cent of annual targets.

The Controller of Budget authorised withdrawals of Kshs.451.21 billion from the County Revenue Funds (CRF) accounts to the County Operational Accounts for the County Governments per Article 207(3) of the Constitution. The authorised amount consisted of Kshs.339.39 billion (75.2 per cent) for recurrent activities and Kshs.111.82 billion (24.8 per cent) for development activities.

The cumulative expenditure for the forty-seven County governments amounted to Kshs.446.76 billion. It accounted for 99.0 per cent of the total funds authorised for withdrawal by the Controller of Budget. This expenditure comprised of Kshs.337.53 billion (75.6 per cent) for recurrent activities and Kshs.109.23 billion (24.4 per cent) for development activities. The aggregate expenditure represented an absorption of 79.5 per cent of the annual County Government budget and a decline from an absorption rate of 83.3 per cent realised in FY 2022/23 when the cumulative expenditure was Kshs.428.90 billion. County governments that achieved the highest overall absorption rates of their respective approved aggregate annual budgets were Wajir at 90.8 per cent, Narok at 90.3 per cent, Mandera at 90.0 per cent, Meru at 89.6 per cent, Nyeri at 88.4 per cent, and Bomet at 87.4 per cent. On the other hand, Bungoma, Kwale, Nakuru, Kisii, Garissa, and Kisumu recorded the lowest aggregate absorption rates at 72.5 per cent, 71.1 per cent, 70.5 per cent, 69.6 per cent, 67.2 per cent and 64.7 per cent, respectively.

The total development expenditure for the forty-seven County Governments amounted to Kshs.109.23 billion, translating to an absorption rate of 57.5 per cent of the cumulative annual FY 2023/24 development budget of Kshs.189.93 billion, indicating a decline from an absorption rate of 61.0 per cent realised in FY 2022/23 when the cumulative development expenditure was Kshs.97.98 billion. Narok, Homa Bay, Wajir, Mandera, Meru, and Bomet Counties achieved the highest absorption rates of their respective approved development budgets at 90.3 per cent, 86.3 per cent, 83.4 per cent, 82.6 per cent, 79.3 per cent and 76.2 per cent respectively. County governments that had the lowest absorption rates of their respective approved development budgets included Nyandarua at 45.9 per cent, Garissa at 44.8 per cent, Mombasa at 43.4 per cent, Nairobi City at 38.7 per cent, Kisumu at 37.0 per cent, and Kisii at 29.2 per cent.

The overall recurrent expenditure during the period under review amounted to Kshs.337.53 billion, accounting for 90.5 per cent of the cumulative annual County government's budget for recurrent activities and a decline from 93.3 per cent recorded in the FY 2022/23 when expenditure was Kshs.330.92 billion. The expenditure included Kshs.209.84 billion (62.2 per cent) for personnel emoluments and Kshs.127.69 billion (37.8 per cent) for operations and maintenance.

The Controller of Budget identified several challenges that hindered effective budget execution, including the National Treasury's failure to disburse the June 2024 equitable share of revenue to county governments, High expenditures on personnel emoluments, low expenditures on the development budget using Commercial Bank accounts, underperformance in own-source revenue collection, high pending bills, delays in submitting financial and non-financial reports to the Controller of Budget all contributed to poor budget implementation, and excessive expenditure on traveling which amounted to Kshs.17.60 billion.

Based on the preceding findings, the Controller of Budget recommends the following actions to improve budget implementation:

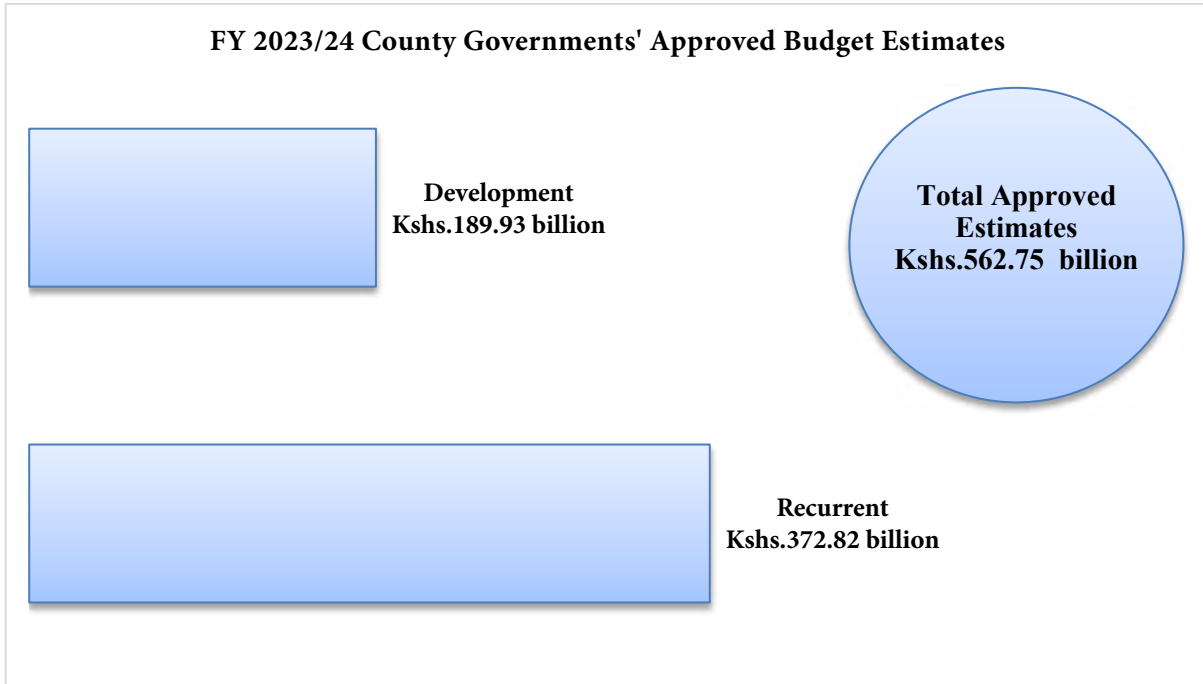

The National Government should develop and implement revenue-raising measures to ensure timely disbursements to county governments according to the approved disbursement schedules. Further, the county governments should ensure that expenditure on personnel emoluments is contained at sustainable levels and in compliance with Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015. Further, the county governments should fast-track the acquisition of Unified Personnel Numbers for their staff and ensure that payroll is processed through the prescribed government system. The county governments should develop and implement strategies to increase expenditures on the development budget, achieving the 30 per cent threshold provided in law and improving their citizens' living standards.

The County Executive Committee Members are responsible for finance follow-up and ensuring compliance with the law by maintaining bank accounts at the Central Bank of Kenya for accountable spending. The County governments should develop revenue enhancement strategies and set realistic and achievable targets in the next financial year (FY 2024/25) to avoid accumulating pending bills. The CoB further recommends that County Governments settle the eligible pending bills as a first charge on the budget in line with the law and prepare credible budgets with realistic revenue targets. Similarly, the National Treasury should promptly transfer the equitable revenue share to county governments per the Approved Disbursement Schedule.

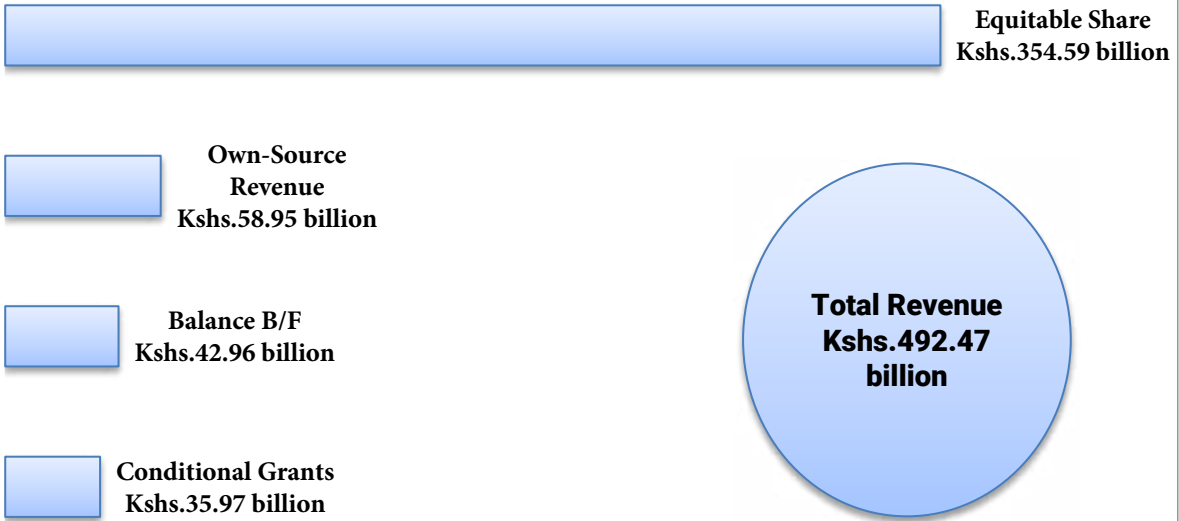

The county governments should implement mechanisms to ensure adherence to the legal provisions for submitting quarterly financial and non-financial reports as provided in law. On excessive expenditure on travel, the CoB advises county governments to minimize traveling costs by holding activities within the county headquarters.

1. INTRODUCTION

The Office of the Controller of Budget (OCoB) is an oversight institution established under Article 228 of the Constitution of Kenya, 2010, to oversee and report on the implementation of the budgets of the National and County Governments. Article 228 (6) of the Constitution and Section 9 of the Controller of Budget (COB) Act, 2016 require the Controller of Budget to submit to each house of Parliament a report on the implementation of the budgets of the National and County Governments every four months.

This Annual County Budget Implementation Review Report (CBIRR) is prepared per the above legal requirements and covers the twelve months of FY 2023/24, from July 2023 to June 2024. The CBIRR presents the status of budget execution by county governments. The report analyses information on own source revenue, transfers received from the National Government and Development Partners, and the total expenditure of the financial year (FY) 2023/24. The (CBIRR) is based on quarterly financial reports submitted to the OCoB by County Treasuries in line with Sections 166 and 168 of the Public Finance Management (PFM) Act 2012, data obtained from the Integrated Financial Management System (IFMIS), and information obtained by the OCoB in the course of overseeing budget implementation. This report uses an absorption rate to measure performance, which is computed as a percentage of actual expenditure against the approved annual budget estimates.

The reporting structure of this CBIRR is as follows: Chapter One captures the introduction, and Chapter Two analyses the counties' budget performance during FY2023/24. The Chapter details the performance of the county government's own-source revenue, and actual expenditure against the set budget estimates for both recurrent and development expenditures are discussed. Further recurrent expenditures have been categorized into Personal Emoluments (PE) and Operations and Maintenance (O&M). A summary report on the County governments' pending bills as of 30th June 2024 is provided in this chapter.

A detailed report by individual counties is provided in Chapter Three. Information on budget performance and the allocations for recurrent and development expenditures, exchequer issues, and actual spending (classified into Employee Compensation, Operation and Maintenance, and Development Expenditure) are discussed in the Chapter. Programmes and sub-programmes budget execution for each department is analysed, and information on development projects undertaken in the FY 2023/24 is also covered here.

Chapter four summarises the critical challenges observed in each County's budget implementation in FY 2023/24. The report further provides recommendations to ensure effective and efficient budget implementation and to promote best practices. The Conclusion of this report is provided in the last chapter.

2. FINANCIAL ANALYSIS OF COUNTY GOVERNMENT BUDGET IMPLEMENTATION IN FY 2023/24

The total funds available to the County Governments in the FY 2023/24 amounted to Kshs.492.47 billion, comprised of Kshs.354.59 billion as the equitable share of revenue raised nationally, Kshs.42.96 billion cash balance from FY 2022/23, Kshs.58.95 billion raised from own revenue sources, and Kshs.35.97 billion as additional allocations/conditional grants.

2.4. Own-Source Revenue

During the reporting period, County governments generated a total of Kshs.58.95 billion from their own-source revenue (OSR), which was 72.8 per cent of the annual target of Kshs.80.94 billion. The realized OSR is an improvement compared to Kshs.37.81 billion generated in FY 2022/23. Analysis of own-source revenue collection for July 2023 to June 2024 is shown in Table 2.1

An analysis of own-source revenue as a proportion of the annual revenue target indicated that ten counties outperformed their annual targets, namely Turkana at 241.2 per cent, Vihiga at 136.3 per cent, Kirinyaga at 118.4 per cent, Lamu at 116.2 per cent, Nandi at 113 per cent, Wajir at 110 per cent, Garissa at 108.2 per cent, Nyeri at 106.1 per cent, Samburu at 104.1 per cent, and Murang'a at 100.2 per cent. County governments which recorded low performance of own source revenue were Nyandarua at 42.1 per cent, Machakos at 46.5 per cent, Mandera at 50.8 per cent, Nyamira at 53.8 per cent, Bungoma at 55.8 per cent, Kajiado at 56.1 per cent, and Busia at 56.9 of annual targets. Detailed analysis of Own Source Revenue by stream for each County is provided in Chapter Three.

The Controller of Budget advises county governments with recorded performance below 70 per cent of their annual target to develop revenue enhancement strategies and set realistic and achievable targets in the next financial year to avoid accumulating pending bills in the coming financial year.

2.5. Funds Released to the Counties

2.5.1 Funds Released from the Consolidated Fund to the Counties

In the FY 2023/24, the Controller of Budget (COB) approved the transfer of Kshs.354.59 billion as the equitable share of revenue raised nationally from the Consolidated Fund to the various County Revenue Funds (CRFs) per Article 206 (4) of the Constitution. The transferred amount represented 92 per cent of the allocated equitable share of Kshs.385.42 billion.

During the period, county governments received additional conditional grants, namely, Kshs.6.19 billion from the Wank Credit for Financing Locally Led climate programme (FLLoCA)1 CCRG, Kshs.1.2 billion as a conditional grant from the Government of Germany KfW for Financing Locally Led-Climate Action Programme (CCRIG), Kshs.6.17 billion for the National Agricultural Value Chain Development Project (NAVCDP), Kshs.304.16 million for the National Agricultural and Rural Inclusive Growth Project (NARIGP), Kshs.451 million as County Climate Institutional Support 9CCIS) Grant under FLLoCA, Kshs.58.41 million for the Agricultural Sector Development Support Programme Phase (ASDSP) II, Kshs.1.65 billion for the Kenya Emergency Locust Response Programme, Kshs.160.96 million for the Kenya Livestock Commercialization Program, and Kshs.1.02 billion for the Second Informal Improvement Project (KISIP II). A detailed analysis of the released equitable share to each County is provided in chapter three.

2.5.2 Funds Released to the County Operational Accounts

The CoB authorised withdrawals of Kshs.451.21 billion from the County Revenue Funds to the County Operational Accounts comprised of Kshs.111.82 billion (24.8 per cent) for development expenditure and Kshs.339.39 billion (75.2 per cent) for recurrent expenditure, an improvement from the Kshs.430.48 billion authorised in the FY 2022/23. A detailed analysis of the funds released to each County is provided in chapter three.

2.6. Expenditure Analysis

The total expenditure by county governments in the FY 2023/24 was Kshs.446.76 billion, representing an absorption rate of 79.5 per cent of the total annual county governments' budget of Kshs.562.75 billion, a decline from an absorption rate of 83.3 per cent reported in the FY 2022/23, when the total expenditure was Kshs.428.90 billion.

Recurrent expenditure was Kshs.337.53 billion, representing 90.5 per cent of the annual recurrent budget, a decrease from 93.3 per cent reported in the FY 2022/23. Development expenditure amounted to Kshs.109.23 billion, representing an absorption rate of 57.5 per cent and a decline from 61 per cent attained in the FY 2022/23 when total development expenditure was Kshs.97.98 billion. The analysis of expenditure by economic classification in the FY 2023/24 is provided in Table 2.2.

A review of cumulative expenditure by economic classification showed that Kshs.209.84 billion (47 per cent) was spent on Personnel Emoluments, Kshs.127.69 billion (28.6 per cent) on Operations and Maintenance, and Kshs.109.23 billion (24.4 per cent) on Development Expenditure.

2.6.1 Development Expenditure

The County governments spent Kshs.109.23 billion on development activities, representing an absorption rate of 57.5 per cent of the annual development budget of Kshs.189.93 billion. This decreased from an absorption rate of 61 per cent reported in FY 2022/23 when development expenditure was Kshs.97.98 billion. Analysis of County budget allocations, expenditures, and absorption rates in the period under review is provided in Table 2.3.

The analysis of development expenditure shows that counties with the lowest absorption rates were Kisii at 29.2 per cent, Kisumu at 37 per cent, Nairobi City at 38.7 per cent, Mombasa at 43.4 per cent, and Garissa at 44.8 per cent of annual development expenditure budget allocations. Counties that reported the highest absorption rate for development expenditure budget were Narok at 90.3 per cent, Homa Bay at 86.3 per cent, Wajir at 83.4 per cent, Mandera at 82.6 per cent and Meru at 79.3 per cent. An analysis of the development expenditure implemented by Counties is provided in chapter three.

2.6.2 Recurrent Expenditure

The Counties spent an aggregate of Kshs.337.53 billion, or 75.6 per cent of the total expenditure, on recurrent activities. This expenditure represented 90.5 per cent of the annual County government's budget for recurrent activities and was a decline from 93.3 per cent recorded in FY 2022/23 when expenditure stood at Kshs.330.92 billion.

The recurrent expenditure comprised Kshs.209.84 billion (62.2 per cent) on Personnel Emoluments and Kshs.127.69 billion (37.8 per cent) on Operations and Maintenance (O&M) expenditure. An analysis of the recurrent expenditure by Counties is provided in chapter three.

2.6.3 Review of MCA Sitting Allowances

The County Assemblies spent Kshs.1.59 billion on MCA's Sitting allowances against an approved budget allocation of Kshs.1.85 billion during the reporting period. This expenditure translated to 85.5 per cent of the approved MCA sitting allowance budget, an increase from 79.9 per cent in the FY 2022/23 when Kshs.1.34 billion was spent. Table 2.4 shows the budgetary allocation and expenditure on MCAs and Speakers' sitting allowances in the FY 2023/24.

Analysis of expenditure by departments shows that the Trade, Cooperatives and Industrialization recorded the highest absorption rate of development budget at 99.6 per cent, followed by the County Finance and Economic Planning at 95.7 per cent. Two Departments, namely, the Department of County Finance and Economic Planning and the Department of Water and Irrigation, posted the highest percentage of recurrent expenditure to budget at 100 per cent each, while the Department of Trade, Cooperatives and Industrialization had the lowest at 77.5 per cent.

Sub-programmes with the highest levels of implementation based on absorption rates were Purchase and Interior design at the County assembly Chambers at 99 per cent, KDS Programme at 99 per cent, Tourism Development and Marketing at 99 per cent, and Bursary and Scholarship programme at the Department of Education and Vocational training 100 per cent of budget allocation.

3.1.13 Accounts Operated Commercial Banks

The County government operated 283 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.1.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget affected the timely preparation of the annual budget implementation report. The final reports were received on 5th August 2024 against a stipulated timeline of 15th Jul. 2024
2. The County Treasury managed inter-departmental vote books poorly and used weak budgeting practices, as shown in Table 3.6. The county incurred expenditures above the approved exchequer issues and diverted funds.
3. High wage bills accounted for 47.6 per cent of the County's total revenue in FY 2023/24, which is above the ceiling provided in law.
4. The County government uses commercial bank accounts for operations contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that county government bank accounts be opened and maintained at the Central Bank of Kenya. The commercial bank accounts are mainly for County Health facilities & Dispensaries and for various departments' office operations and activities.
5. Low expenditure on development which was 27.6 per cent of total expenditure

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with the timelines prescribed in Section 166 of the PFM Act, 2012.*
2. *The County Treasury should improve the Vote book and budgetary controls to ensure expenditure is within the approved budget and exchequer releases.*
3. *The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
4. *The County Government should ensure that bank accounts are opened and operated at the Central Bank of Kenya as the law requires. However, imprest bank accounts for petty cash and revenue collection accounts are exempted.*
5. *The County should ensure expenditure on development is within the 30% threshold in law*
6. *High expenditure on domestic travel at Kshs.324.19 million*
7. *The Country shall minimize expenditure on travelling by holding activities within the county.*

In FY 2023/24, the County generated a total of Kshs.238.93 million from its sources of revenue, including FIF. This amount represented a decrease of 1.4 per cent compared to Kshs.242.40 million realized in FY 2022/23. It was 72.0 per cent of the annual target and 3.7 per cent of the equitable revenue share disbursed during the period. The decrease in OSR can be attributed to the delayed disbursement of the NHIF remittances amounting to Kshs.47 million that was supposed to be paid to the County Government of Bomet health facilities before the close of the financial year. The revenue streams which contributed the highest OSR receipts are shown in Figure 6.

Figure 6: Top Streams of Own Source Revenue in the FY 2023/24

The highest revenue stream, Kshs.100.21 million, was Property Income, which contributed 42 per cent of the total OSR receipts during the reporting period.

3.2.3 Exchequer Issues

3.2.7 Expenditure on Employees' Compensation

In the FY 2023/24, expenditure on employee compensation was Kshs.3.64 billion, or 47.2 per cent of the available revenue, which amounted to Kshs.7.72 billion. This expenditure represented an increase from Kshs.3.17 billion reported in FY 2022/23. The wage bill included Kshs.1.04 billion paid to health sector employees, translating to 28.6 per cent of the total wage bill. The more than 10 per cent increase in Personnel Emoluments compared to the previous financial year is attributed to, among other factors - the recruitment of 323 critical staff in all the county departments, settlement of arrears for staff who did not have personnel numbers in the previous financial year and the introduction of housing levy at 1.5% of the gross salary of an employee with a matching contribution being made by the employer.

Figure 7 shows the trend of personnel expenditure as a percentage of total revenue from FY 2017/18 to FY 2023/24.

Further analysis indicates that PE costs amounting to Kshs.3.25 billion were processed through the Integrated Personnel and Payroll Database (IPPD) system, while Kshs.394.03 million was processed through manual payrolls. The manual payrolls accounted for 10.8 per cent of the total PE cost. The County Assembly spent Kshs.20.05 million on committee sitting allowances for the 38 MCAs and the Speaker against the annual budget allocation of Kshs.20.05 million. The average monthly sitting allowance was Kshs.42,840 per MCA. The County Assembly has established 21 Committees.

3.2.8 County Emergency Fund and County-Established Funds

Section 116 of the PFM Act 2012 allows County governments to establish other public funds with approval from the County Executive Committee and the County Assembly. The County allocated Kshs.216 million to county-established funds in FY 2023/24, constituting 2.5 per cent of the County's overall budget. Further, the County allocated Kshs.7.90 million to the Emergency Fund in line with Section 110 of the PFM Act, 2012. Table 3.10 summarises each established Fund's budget allocation and performance during the reporting period.

During the reporting period, the CoB received quarterly financial returns from Fund Administrators of the three funds, as indicated in Table 3, as per the requirement of Section 168 of the PFM Act, 2012. The administration costs of the Funds were within the 3 per cent limit of the Fund budget set in Regulation 197(1)(d) of the Public Finance Management (County Governments) Regulations, 2015.

The County government uses commercial bank accounts to operate the above-established public funds contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which require that County government bank accounts must be opened and maintained at the Central Bank of Kenya.

Sub-programmes with the highest levels of implementation based on absorption rates were; Legislative Services and Oversight and Representation in the County Assembly at 100 per cent, Monitoring & Evaluation Services in the Department of Economic Planning at 99.9 per cent, Health Care Financing in the Department of Medical Services and Public Health at 99.9 per cent, and Planning & Statistics in the Department of Economic Planning at 99.3 per cent of budget allocation.

3.2.13 Accounts Operated Commercial Banks

The County government operated a total of 17 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.2.14 Key Observations and Recommendations

While overseeing and reporting on the county budget implementation, the COB identified the following challenges that hampered effective budget implementation.

1. The under performance of own-source revenue at Kshs.238.93 million against an annual target of Kshs.332.04 million, representing 72.0 per cent of the annual target.
2. High level of pending bills, which amounted to Kshs.448.77 million as of 30th June 2024.
3. The County Executive's high wage bill accounted for 47.2 per cent of the County's total approved revenue in FY 2023/24, which is above the ceiling provided in law.
4. Use of manual payroll. Personnel Emoluments amounting to Kshs.394.03 million were processed through the manual payroll, accounting for 10.8 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
5. The county government uses commercial bank accounts for operations contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank

accounts be opened and maintained at the Central Bank of Kenya. Out of the 17 operational commercial bank accounts, 15 are for the County Established Funds and the Conditional Grants, and the standing imprests are for the two arms of the county.

6. Low expenditure on development programmes which accounted for 24.7 per cent of total expenditure

The County should implement the following recommendations to improve budget execution:

1. *The County should address its own-source revenue performance to ensure the approved budget is fully financed. The County Treasury should ensure that the setting of annual OSR is realistic and take appropriate austerity measures during the year to ensure expenditure commitments are aligned with available revenue.*
2. *The County Leadership should address the situation of pending bills to ensure that genuine bills are paid promptly in the financial year 2024/25.*
3. *The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
4. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
5. *The County Government should ensure that bank accounts are opened and operated at the Central Bank of Kenya as the law requires. However, imprest bank accounts for petty cash and revenue collection accounts are exempted.*
6. *The County should prioritize expenditure on development programme to achieve 30% threshold in law.*

Sub-programmes with the highest levels of implementation based on absorption rates were: Routine Medical Services Grants, DANIDA/UNICEF in the Department of Health and Sanitation at 105.9 per cent, General Administration, Planning and Support Services (County secretary)-Operations in the Department of Office of the County Secretary and County Attorney at 100.5 per cent, Administrative Service Management (boards and Committees, travel costs, catering services, others) in the Department of Gender and Culture at 100.4 per cent, and Administrative Services in Department of Finance and Economic Planning at 100.3 per cent of budget allocation.

3.3.13 Accounts Operated Commercial Banks

The County government operated a total of 358 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.3.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. The under performance of own-source revenue at Kshs.439.48 million against an annual target of Kshs.868.20 million, representing 50.6 per cent of the annual target.
2. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB within the timelines provided by law, which is against the requirement of Section 168 of the PFM Act, 2012. The reports for the Emergency Fund, Empowerment Fund, Disability Empowerment Fund and Youth Empowerment Fund were not submitted to the Controller of Budget.
3. There was a high level of pending bills, which amounted to Kshs.3.51 billion as of 30 June 2024. Further, the county Treasury did not adhere to the payment plan for the pending bills.
4. High wage bills accounted for 47.9 per cent of the County's total revenue in FY 2023/24, which is above the ceiling provided in law.
5. Use of manual payroll. Personnel emoluments amounting to Kshs.231.32 million were processed through manual payroll, accounting for 3.8 per cent of the total payroll cost. Manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
6. The county government uses commercial bank accounts for operations contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The commercial bank accounts are for Level 4 and 5 Hospitals, Funds, Vocational Training, Municipalities, Health Facilities and Dispensaries and Sub Counties Entities.
7. Low expenditure on development activities which accounted for 28.2% of total expenditure
8. High expenditure on domestic travel at Kshs.419.79 million

The County should implement the following recommendations to improve budget execution:

1. *The County should address its own-source revenue performance to ensure the approved budget is fully financed. Appropriate austerity measures should be implemented to ensure expenditure commitments are aligned with available revenue.*
2. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
3. *The county leadership should address the situation of pending bills to ensure that genuine bills are paid promptly in the remaining financial year. Further, compliance with the payment plan should be enforced.*
4. *The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
5. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
6. *The County Government should ensure that bank accounts are opened and operated at the Central Bank of Kenya as the law requires. However, imprest bank accounts for petty cash and revenue collection accounts are exempted.*

7. The County should prioritize expenditure on development programmes to ensure it is within the provision of law.
8. The county should minimize expenditure on travelling by holding activities within the County.

Analysis of expenditure by departments shows that the Department of Education and Vocational Training recorded the highest absorption rate of development budget at 106.6 per cent, followed by the Department of Office of the Governor at 87.8 per cent, while the Department of Strategic Partnerships and Blue Economy had the lowest at 0 per cent. The Department of County Assembly had the highest percentage of recurrent expenditure to budget at 88.3 per cent, followed by the Department of Office of the Governor at 78.7 per cent. Sub-programmes with the highest levels of implementation based on absorption rates were: ATC infrastructure in the Department of Smart Agriculture, Livestock and Fisheries at 189.0 per cent, housing development in the Department of Lands, Housing & Urban Development at 366.7 per cent, water systems operations & maintenance in the Department of Water, Environment, Irrigation, Natural Resources and Climate Change at 200.6 per cent, and climate change mitigation and resilience at 115.0 per cent of budget allocation. Absorption rates above 100 percent is irregular and should be addressed by the County Treasury.

3.4.13 Accounts Operated Commercial Banks

The County government operated 62 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.4.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. Own-source revenue under performed at Kshs.369.20 million against an annual target of Kshs.649.02 million, representing 56.0 per cent of the annual target.
2. Failure to refund unspent funds from FY 2022/23 into the CRF account led to actual expenditure exceeding the approved exchequer in several departments, as shown in Table 3.27.
3. Fund Administrators' failure to submit quarterly financial and non-financial reports to the COB within the timelines provided by law is against the requirement of Section 168 of the PFM Act, 2012.
4. There was a high level of pending bills, which amounted to Kshs.1.42 billion as of 30th June 2024. Further, the County Treasury did not adhere to the payment plan for pending bills.
5. Use of manual payroll. Personnel emoluments amounting to Kshs.582.60 million were processed through manual payroll, accounting for 20.6 per cent of the total payroll cost. Manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
6. The county government uses commercial bank accounts for operations contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya.
7. Low expenditure on development activities which was 26.8% of total expenditure in the FY 2023/24

The County should implement the following recommendations to improve budget execution:

1. *The County should address its own-source revenue performance to ensure the approved budget is fully financed. Appropriate austerity measures should be implemented to ensure expenditure commitments are aligned with available revenue.*
2. *The County Treasury should ensure unspent funds from the previous financial year are deposited to the CRF account in line with Section 136 of the PFM Act 2012.*
3. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
4. *The County leadership should address the situation of pending bills to ensure that genuine bills are paid promptly in the next financial year. Further, compliance with the payment plan should be enforced.*
5. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
6. *The County Government should ensure that bank accounts are opened and operated at the Central Bank of Kenya as the law requires. However, imprest bank accounts for petty cash and revenue collection accounts are exempted.*
7. *The County should prioritize expenditure on development activities to ensure compliance within 30% ceiling on law.*

Sub-programmes with the highest levels of implementation based on absorption rates were Human Resource Management in the Department of Public Service Management and County Administration at 100.0 per cent, Accounting Services in the Department of Finance and Economic Planning at 100.0 per cent, Legislative Oversight in the County Assembly of at 100.0 per cent, and Pre-primary Infrastructure Development in the Department of Education and Technical Training at 100.0 per cent of budget allocation.

3.5.13 Accounts Operated Commercial Banks

The County government operated a total of 16 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.5.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget affected the timely preparation of the budget implementation report. The report was received on 1st August, 2024.
2. High wage bills accounted for 48.8 per cent of the County's total revenue in FY 2023/24, which is above the ceiling provided in law.
3. Use of manual payroll. Personnel emoluments amounting to Kshs.266.61 million were processed through the manual payroll, accounting for 9.8 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
4. The county government uses commercial bank accounts for operations contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The commercial bank accounts are for Conditional Grants.
5. Low expenditure on development programmes which accounted for 23.4 per cent of total expenditure

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with the timelines prescribed in Section 166 of the PFM Act, 2012.*
2. *The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
3. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
4. *The County Government should ensure that bank accounts are opened and operated at the Central Bank of Kenya as the law requires. However, imprest bank accounts for petty cash and revenue collection accounts are exempted.*
5. *The County should ensure development expenditure is above the ceiling provided in law.*

The County surpassed the set Ordinary Own Source Revenue target of Kshs.382.8 million achieving Kshs.416.74 million, representing a 108.9 per cent performance.

Figure 21 shows the trend in own-source revenue collection from the FY 2017/18 to the FY 2023/24.

Figure 21: Trend in Own-Source Revenue Collection from the FY 2017/18 to the FY 2023/24

In FY 2023/24, the County generated a total of Kshs.746.49 million from its revenue sources, inclusive of AIA. This amount represented an increase 10 per cent increase compared to Kshs.678.64 million realized in FY 2022/23. It was 99.53 per cent of the annual target and 15.19 per cent of the equitable revenue share disbursed during the period.

The increase in OSR can be attributed to various strategies put in place by the County that include the following;

- i) Reorganization and Restructuring of the Embu County Revenue Authority (ECRA) Management.
- ii) Implementation of cashless collection and automation of revenue streams.
- iii) Sealing of revenue leakages.
- iv) Rotation and transfer of staff.
- v) Revenue performance targets.
- vi) Citizenry Partnership in Revenue Enhancement.

The revenue streams which contributed the highest OSR receipts are shown in Figure 22.

Figure 22: Top Streams of Own Source Revenue in the FY 2023/24

Source: Embu County Treasury

The highest revenue stream of Kshs.118.25 million was from Single Business Permit, contributing to 15.84 per cent of the total OSR receipts during the reporting period.

3.6.3 Exchequer Issues

3.6.13 Accounts Operated Commercial Banks

The County government operated 31 accounts, mainly Revenue Collection Commercial Banks accounts, of which most of them are exempted as they are imprest bank accounts for petty cash and revenue collection bank accounts.

3.6.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget affected the timely preparation of the budget implementation report. The report was received on 14th August 2024.
2. There was a high level of pending bills, which amounted to Kshs.1.82 billion for the county executive and 22.06 million for the county assembly as of 30th June 2024.
3. Low absorption for Development, which was at 23.9 per cent of total expenditure.
4. High wage bills accounted for 53.4 per cent of the County's total revenue in FY 2023/24, which is above the ceiling provided by law.
5. Use of manual payroll. Personnel emoluments amounting to Kshs.162.14 million were processed through manual payroll, accounting for 4.62 per cent of the total payroll cost. Manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
6. The county government uses commercial bank accounts for operations contrary to Regulations 82(1) (b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya.

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of*

the Controller of Budget in line with the timelines prescribed in Section 166 of the PFM Act, 2012.

2. *The County leadership should address the situation of pending bills to ensure that genuine bills are paid promptly in the remaining financial year. Further, compliance with the payment plan should be enforced.*
3. *The County Should develop strategies to enhance the absorption of Development expenditure to ensure it is within the threshold in law.*
4. *The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue, as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
5. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
6. *The County Government should ensure that bank accounts are opened and operated at the Central Bank of Kenya as the law requires. However, imprest bank accounts for petty cash and revenue collection accounts are exempted.*

In FY 2023/24, the County generated a total of Kshs.248.97 million from its sources of revenue, including FIF. This amount represented an increase of 27.2 per cent compared to Kshs.195.74 million realized in a similar

period in FY 2022/23 and was 108.2 per cent of the annual target and 3.3 per cent of the equitable revenue share disbursed during the period.

The increase in OSR can be attributed to Policy Reforms. The county managed to implement the FIF Act. The County also enhanced Revenue Collection efforts by improving the efficiency of FIF administration and collection processes, reducing tax evasion, and enhancing compliance, all of which aimed to enhance revenue mobilization.

The revenue streams which contributed the highest OSR receipts are shown in Figure 26.

Sub-programmes with the highest levels of implementation based on absorption rates were Micro Enterprise, Environment and Natural Resources in the Department of Trade, Investments Development and Tourism and Water, Environment and Natural Resources, respectively, all at 100 per cent, Livestock in the sub-department of Livestock under Agriculture, Livestock & Pastoral Department at 99.3 per cent, Sub Counties sub-programme Preventive and Promotive Health Programme in the Department of Health and Sanitation at 98.6 per cent, and Administration under Administration & Support Services Programme in the Finance and Economic Planning Department at 64.9 per cent of budget allocation.

3.7.13 Accounts Operated Commercial Banks

The County government operated 11 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts

be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection.

3.7.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget affected the timely preparation of the budget implementation report. The complete report was received on 2nd August 2024
2. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB within the timelines provided in law, which is against the requirement of Section 168 of the PFM Act, 2012. The reports for the Disaster Management/Emergency Fund, Bursary Fund and Micro and Small Enterprises Development Revolving Fund were not submitted to the Controller of Budget.
3. High wage bills accounted for 44.0 per cent of the County's total revenue in FY 2023/24, which is above the ceiling provided in law.
4. Use of manual payroll. Personnel emoluments amounting to Kshs.480.38 million were processed through the manual payroll, accounting for 11.9 per cent of the total payroll cost. Manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
5. Low expenditure on development budget which was 26.8 per cent of total expenditure.

The County should implement the following recommendations to improve budget execution.

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with the timelines prescribed in Section 166 of the PFM Act, 2012.*
2. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
3. *The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
4. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
5. *The County should prioritize expenditure on development projects in order to achieve the 30 per cent threshold in law.*

3.8. County Government of Homa Bay

3.8.1 Overview of FY 2023/24 Budget

The County's approved second supplementary budget estimates for the FY 2023/24 was Kshs.11.17 billion, comprising Kshs.3.51 billion (31.4 per cent) and Kshs.7.66 billion (68.6 per cent) allocated for development and recurrent programmes, respectively. The approved supplementary budget estimates represented an increase compared to the previous financial year when the approved budget was Kshs.10.08 billion and comprised of Kshs.3.10 billion towards development expenditure and Kshs.6.98 billion for recurrent expenditure.

The own-source revenue includes Kshs.1.05 billion as Appropriation in Aid (AIA)/Facility Improvement Fund

(FIF) and Kshs.341.14 million as ordinary own-source revenue. A breakdown of the additional allocations/conditional grants is provided in Table 3.50.

The Health Sector AIA/FIF amounted to Kshs.841.23 million, representing 76.5 per cent of the overall OSR in the reporting period. The entire amount realized from FIF was not swept to the CRF account, which is in line

with the Homa Bay County Facility Improvement Fund Act, 2023, which allowed the County health facilities to collect and retain revenue paid as user fees in order to defray operational, management and capital costs.

The highest ordinary revenue stream of Kshs.99.13 million was from a single business permit, contributing 9.0 per cent of the total OSROSR receipts during the reporting period.

3.8.3 Exchequer Issues

Analysis of development expenditure by the department shows that the Department of Roads, Public Works, Transport and Infrastructure, Ndhiwa Municipal Board, Oyugis Municipal Board are all at 100 per cent, followed by Homa Bay Municipal Board, Lands, Physical Planning, Housing and Urban Development, Public Health and Medical Services and Education, Human Capital Development and Vocational Training all at 99.9 per cent.

Further analysis shows the development expenditure for some departments exceeded the exchequer releases, which can be attributed to IFMIS reporting transactions at the IB level as paid while they were awaiting funding through the exchequer process. The County Treasury should ensure that such transactions are voided in the system at the close of each financial year.

The programmes with the highest levels of budget implementation based on absorption rates were; Ward Representation Services and Oversight and Control Services in the County Assembly Service Board at 100.0 per cent; Housing and Urban Development Services in the Ndhiwa Municipality Board and in the Homa Bay

Municipal Board at 100.0 per cent of their respective budget allocations; Housing and Urban Development Services in the Department of Lands, Housing, Urban Development and Physical Planning at 99.7 per cent; Road Development and Rehabilitation Services in the Department of Roads, Transport and Public Works and Infrastructure at 98.9 per cent; Environmental Protection and Management Services in the Department of Water Sanitation, Irrigation, Environment, Energy and Climate Change at 98.8 per cent; Human Capital Development and Vocational Training Services and Water Supply and Management Services in the Department of Education, Human Capital Development and Vocational Training and the Department of Water Sanitation, Irrigation, Environment, Energy and Climate Change respectively both at 98.7 per cent of their respective budget allocations.

3.8.14 Accounts Operated Commercial Banks

The County Executive and County Assembly operated seven accounts and five accounts with commercial banks, respectively. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which required that County government bank accounts must be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and own source revenue collection accounts.

3.8.15 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget affected the timely preparation of the budget implementation report. The report was received on 5th August, 2024.
2. Huge pending bills amounting to Kshs.739.12 million as of 30th June 2024. Further, there was non-adherence to the payment plan for the pending bills by the County Treasury.
3. A high wage bill, which accounted for 44 per cent of the County's total revenue in FY 2023/24 of Kshs.9.97 billion, which is above the ceiling provided by law.
4. Use of manual payroll. Personnel emoluments amounting to Kshs.759.58 million were processed through the manual payroll, accounting for 17.3 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
5. The County government uses commercial bank accounts for operations contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts must be opened and maintained at the Central Bank of Kenya. The commercial bank accounts are for county-established funds, salary processing and operations.
6. High expenditure on domestic travel at Kshs.317.77 million.

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with the timelines prescribed in Section 166 of the PFM Act, 2012.*
2. *The County leadership should address the situation of pending bills to ensure that genuine bills are paid promptly in the next financial year. A payment plan should be provided at the beginning of the FY.*
3. *The County Public Service Board should establish an optimal staffing structure to ensure expenditure on personnel emoluments complies with Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
4. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
5. *The County Government should ensure that bank accounts are opened and operated at the Central Bank of Kenya as required by the law. However, imprest bank accounts for petty cash and own source revenue collection accounts are exempted.*
6. *The County should minimize expenditure on domestic travel by holding activities within the County headquarters.*

Figure 33: Trend in Own-Source Revenue Collection from the FY 2017/18 to the FY 2023/24

In FY 2023/24, the County generated a total of Kshs.285.20 million from its sources of revenue, including FIF and AIA. This amount represented an increase 86.8 per cent compared to Kshs.152.70 million realized in FY 2022/23 and was 80.1 per cent of the annual target and 6.3 per cent of the equitable revenue share disbursed during the period. The OSR includes revenue arrears and penalties charged on fees and levies from previous financial years of Kshs.14.28 million. The increase in revenue by 86.8 per cent may be attributed to the revival of revenue streams that initially reported less revenue, revenue collection supervision change, and partial automation. The revenue streams which contributed the highest OSR receipts are shown in Figure 34.

Figure 34: Top Streams of Own Source Revenue in the FY 2023/24

The report on budget implementation by programmes and sub-programs does not include FIF expenditure as it was not captured in IFMIS. This should be addressed in liaison with the IFMIS Directorate. The sub-programmes with the highest levels of implementation based on absorption rates were General Administration Planning & Support Services at 100 per cent in the Department of the County Executive Sector, Social Protection at 100 per cent in the Department of County Treasury and Economic Planning and Special Programme and ICT and Cohesion, and Quality ECDE Services at 100 per cent of its budgeted allocation in the department of Education, Youth, Sports, and Gender, Culture and Social Services.

3.9.13 Accounts Operated Commercial Banks

The County government operated a total of 11 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.9.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. The late submission of financial reports by the County Treasury to the Controller of Budget affected the timely preparation of the budget implementation report. The report for the County Assembly was received on 31st July 2024, while those for the County Executive were received on 9 August 2024.
2. High level of pending bills, which amounted to Kshs.1.12 billion as of 30 June 2024.
3. High wage bills accounted for 40.8 per cent of the County's total revenue in FY 2023/24, which is above the ceiling provided in law.
4. Use of manual payroll. Personnel emoluments amounting to Kshs.60.47 million were processed through the manual payroll, accounting for 3 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
5. The county government uses commercial bank accounts for operations contrary to Regulations 82(1) (b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The commercial bank accounts are for Operational Public Funds, Conditional grants and Revenue collection.
6. Low expenditure on development budget. Actual expenditure on development activities accounted for 23.1 per cent of total expenditure during the period. This is below the 30 per cent threshold provided in law.
7. Own-source revenue under performed at Kshs.285.20 million, representing 80.1 percent of the annual target, against an annual target of Kshs.356.21 billion.

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with the timelines prescribed in Section 166 of the PFM Act, 2012.*
2. *The County leadership should address the situation of pending bills to ensure that genuine bills are paid promptly in the next financial year. Further, compliance with the payment plan should be enforced.*
3. *The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue, as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
4. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
5. *The County Government should ensure that bank accounts are opened and operated at the Central Bank of Kenya as the law requires. However, imprest bank accounts for petty cash and revenue collection accounts are exempted.*
6. *The County government should prioritize expenditure on the development budget to ensure it meets the 30 per cent threshold provided in law.*
7. *The County should address its own-source revenue performance to ensure the approved budget is fully financed. Appropriate austerity measures should be implemented to ensure expenditure commitments are aligned with available revenue.*

Sub-programmes with the highest levels of implementation based on absorption rates were: Agricultural Training Centre in the Department of Agriculture, Livestock, Veterinary Service and Fisheries at 597.5 per cent, Urban infrastructure in the Department of Kajiado Municipality at 125.8 per cent, Storm Water Management in the Department of Water, Irrigation, Environment and Natural Resource at 113.5 per cent, and Internal Audit at 110.7 per cent of budget allocation. Absorption rates above 100 per cent are irregular and indicate misappropriation of public funds.

3.10.13 Accounts Operated Commercial Banks

The County government operated 27 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.10.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. Own-source revenue under performed at Kshs.1.05 billion against an annual target of Kshs.1.87 billion, representing 56.1 per cent of the annual target.
2. Fund Administrators failed to submit quarterly financial and non-financial reports to the COB within the timelines provided by law, which is against the requirement of Section 168 of the PFM Act, 2012. The reports for the Liquor Fund, Women Empowerment Fund, and MCA's Car and Mortgage Fund were not submitted to the Controller of Budget.
3. There was a high level of pending bills, which amounted to Kshs.2.35 billion as of 30th June 2024. Further, the County Treasury did not adhere to the payment plan for pending bills.
4. High wage bills accounted for 48.3 per cent of the county-approved budget estimates in FY 2023/24, which is above the ceiling provided in law.
5. Use of manual payroll. Personnel emoluments amounting to Kshs.245.35 million were processed through manual payroll, accounting for 5.5 per cent of the total payroll cost. Manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
6. The county government uses commercial bank accounts for operations contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The commercial bank accounts are for Kajiado County Bursary Fund Account, Kajiado County Emergency Fund Account, Kajiado County Executive Car Loan and Mortgage Account, Kajiado County Disability Mainstreaming Fund Account, Kajiado County Investment Authority Fund Accounts and Women and Youth Fund Account, Kajiado County Assembly Car Loan and Mortgage Fund Account, Kajiado County Assembly Operation Account, Kajiado Debt Collection Account, Agricultural Sector Development Support Program II account, Kenya Climate Smart Account, Kajiado County NAVCDP Account, Kajiado County Climate Change Fund Account, Women Economic Empowerment Funds, Kajiado Referral Hospital Account, Ngong Hospital Account, Ongata Rongai Hospital Account, Kitengela Hospital Account, Loitokitok Hospital Account.
7. Low expenditure on development programmes which accounted for 23.2 per cent of total expenditure
8. High expenditure on domestic travel at Kshs.364.82 million

The County should implement the following recommendations to improve budget execution:

1. *The County should address its own-source revenue performance to ensure the approved budget is fully financed. Appropriate austerity measures should be implemented to ensure expenditure commitments are aligned with available revenue.*
2. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*

3. The county leadership should address the situation of pending bills to ensure that genuine bills are paid promptly in the remaining financial year. Further, compliance with the payment plan should be enforced.
4. The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.
5. The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.
6. The County Government should ensure that bank accounts are opened and operated at the Central Bank of Kenya as the law requires. However, imprest bank accounts for petty cash and revenue collection accounts are exempted.
7. The county should prioritize expenditure in development programmes to meet the 30 per cent threshold in law.
8. The County should minimize travelling expenditure by holding activities within the County Headquarters.

3.11.7 Expenditure on Employees' Compensation

In the FY 2023/24, expenditure on employee compensation was Kshs.7.08 billion, or 47.8 per cent of the available revenue, which amounted to Kshs.14.81 billion. Further, the County allocated Kshs.105 million to the Emergency Fund in line with Section 110 of the PFM Act, 2012. During the reporting period, the CoB did not receive the fourth quarterly financial returns from the Fund Administrators of County Assembly Car Loan and Mortgage funds, as indicated in Table 3.71, contrary to the requirement of Section 168 of the PFM Act, 2012.

The Kakamega County Small Scale Trade Development Fund has an outstanding loan balance of Kshs.40,531,045, which was lent to traders and not collected in FY2023/24. This fund duplicates the functions executed by Kakamega County Microfinance Corporation. The County should review the sustainability of these two Funds and take appropriate action.

The County government uses commercial bank accounts to operate the above-established public funds contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which require that County government bank accounts must be opened and maintained at the Central Bank of Kenya.

Analysis of expenditure by departments shows that the Department of ICT, E-government & Communication recorded the highest absorption rate of development budget at 99 per cent, followed by the Department of Finance and Economic Planning at 96.5 per cent. The Department of County Public Service Board had the highest percentage of recurrent expenditure to budget at 105.1 per cent, while the Department of Transport, Infrastructure, Public Works and Energy had the lowest at 63.5 per cent. The County Treasury should investigate the absorption rate above 100 per cent and take corrective action.

The table 3.74 demonstrates that the county directs released funds by COB to alternative activities that had not been submitted to COB during funds requisition process. Further, the unspent balances left in the Special Purpose and Funds Accounts are spent without being subjected to the requisition process. This results to expenditures higher than 100 per cent against requisition/exchequer issues. The absorption rates above 100 per cent display a lack of adherence to the budget by respective departments.

3.11.12 Budget Execution by Programmes and Sub-Programmes

The County reported the budget implementation through the line budget and not the program-based budget. The County Officers require the capacity to prepare and report the program-based budget.

3.11.13 Accounts Operated Commercial Banks

The County government operated 64 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.11.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. The late submission of financial reports by the County Treasury to the Controller of Budget affected the timely preparation of the budget implementation report, which was received on 06 August 2024. Further, the report was incomplete as it lacked a report on budget implementation by programmes and sub-programmes for the FY 2023/24 and a comprehensive report on pending bills for the County Executive.
2. Own-source revenue under performed at Kshs.1.35 billion against an annual target of Kshs. 2.20 billion, representing 61.3 per cent of the annual target.
3. Failure by the County to adhere to the requisition schedules and programs submitted to COB during funds requisition by transferring the approved funds to other functions as shown in Table 3.76.
4. There was a high level of pending bills, which amounted to Kshs.1.83 billion as of 30 June 2024. Further, the County Treasury did not adhere to the payment plan for pending bills.
5. High wage bills which accounted for 47.8 per cent of the County total revenue in FY 2023/24 which is above the ceiling provided in law.

6. Use of manual payroll. Personnel emoluments amounting to Kshs.527.94 million were processed through manual payroll, accounting for 7.5 per cent of the total payroll cost. Manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls. Most manually processed amounts relate to stipends paid to Community Health Promoters and County Youth and Women Empowerment Programs.
7. The county government uses commercial bank accounts for operations contrary to Regulations 82(1) (b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The commercial bank accounts are for the hospital's revenue collections and operations, conditional grants, county corporations, and county-established funds.
8. Low expenditure on development activities which accounted for 20.2 per cent of total expenditure.
9. High expenditure on domestic travel at Kshs.406.01 million

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with the timelines prescribed in Section 166 of the PFM Act, 2012. Further, County staff should be trained to prepare financial reports according to the prescribed templates.*
2. *The County should address its own-source revenue performance to ensure the approved budget is fully financed. Appropriate austerity measures should be implemented to ensure expenditure commitments are aligned with available revenue.*
3. *The county leadership should address the situation of pending bills to ensure that genuine bills are paid promptly in the coming financial year. Further, compliance with the payment plan should be enforced.*
4. *The County Treasury should ensure that requested and approved funds from the COB from CRF are utilized in full adherence to submitted schedules and programs.*
5. *The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
6. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
7. *The County Government should ensure that bank accounts are opened and operated at the Central Bank of Kenya as the law requires. However, imprest bank accounts for petty cash and revenue collection accounts are exempted.*
8. *The County should ensure expenditure on development activities meets the 30 per cent threshold in law.*
9. *The County should minimize travelling expenditure by holding activities within the County Headquarters.*

This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.12.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget affected the timely preparation of the budget implementation. The report was submitted on 7th August 2024.
2. The under performance of own-source revenue at Kshs.841.93 million against an annual projection of Kshs.1.07 billion, representing 78.9 per cent of the annual target.
3. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB, which is against the requirement of Section 168 of the PFM Act, 2012. The reports for the Kericho County Emergency Fund, Kericho County Executive Staff Mortgage Fund, Kericho County Executive Car Loan, Car loans for MCAS and Car loans/Mortgage for Staff Fund were not submitted to the Controller of Budget.
4. High level of pending bills, which amounted to Kshs.1.13 billion as of 30th June, 2024. Further, the County Treasury failed to adhere to the payment plan for pending bills.
5. Use of manual payroll. Personnel emoluments amounting to Kshs.172.56 million were processed through the manual payroll, accounting for 4.9 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
6. The county government uses commercial bank accounts for operations contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that county government bank accounts be opened and maintained at the Central Bank of Kenya.
7. Low expenditure in development programmes which accounted for 24.2 per cent of total expenditure.
9. High expenditure on domestic travel at Kshs.320.89 million

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with Section 166 of the PFM Act, 2012.*
2. *The County should address its own-source revenue performance to ensure the approved budget is fully financed.*

3. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
4. *The county leadership should address the pending bills to ensure that genuine bills are paid promptly in the next financial year.*
5. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
6. *The County Government should ensure that bank accounts are opened and operated at the Central Bank of Kenya as required by the law. However, imprest bank accounts for petty cash are exempted.*
7. *The County should ensure expenditure on development programmes are above the ceiling provided in law.*
8. *The County should minimize travelling expenditure by holding activities within the County Headquarters.*

Figure 49: Trend in Own-Source Revenue Collection from the FY 2017/18 to the FY 2023/24

In the FY 2023/24, the County generated a total of Kshs.4.58 billion from its sources of revenue, inclusive of FIF and AIA. This amount represented an increase of 26.8 per cent compared to Kshs.3.61 billion realized in FY 2022/23 and was 65.4 per cent of the annual target and 40.7 per cent of the equitable revenue share disbursed during the period. The OSR includes revenue arrears and penalties charged on fees and levies from previous financial years of Kshs.267.19 million.

The increase in OSR can be attributed to the introduction of a new ERP revenue system, the issuance of waivers on land rates that encouraged the public to pay, the creation of various task forces in tandem with Huduma Mashinani and RRI initiatives that helped in collection, supervising, and public sensitization on revenue matters through the introduction of bulk SMS as a reminder of payments due.

The revenue streams which contributed the highest OSR receipts are shown in Figure 50.

Figure 50: Kiambu County, Top Streams of Own Source Revenue in the FY 2023/24

The highest revenue stream, Kshs.1.20 billion, was from Health/Hospital fees, which contributed 26 percent of the total OSR receipts during the reporting period.

3.13.3 Exchequer Issues

The Controller of Budget approved withdrawals of Kshs.17.86 billion from the CRF account during the reporting period, which comprised Kshs.3.57 billion (20.0 per cent) for development programmes and Kshs.14.29 billion (80.0 per cent) for recurrent programmes. Analysis of the recurrent exchequers released in the FY 2023/24 indicates that Kshs.8.02 billion was released towards Employee Compensation and Kshs.6.27 billion for Operations and Maintenance expenditure.

Sub-programmes with the highest levels of implementation based on absorption rates were: Alcoholics drinks control in the Department of Administration & Public Service at 100 per cent, Investments in the Department of Trade, Tourism, Industrialization & Investment at 100 per cent, Pre-Primary education and youth polytechnics services in the Department of Education, Gender, Culture & Social Services at 98.0 per cent, and General administration and support services in the Education, Gender, Culture & Social Services at 97.2 per cent of budget allocation.

3.13.13 Accounts Operated Commercial Banks

The County government operated a total of 306 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.13.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget affected the timely preparation of the budget implementation report. The report was received on 24 July, 2024.

2. Own-source revenue under performed at Kshs.4.58 billion against an annual target of Kshs.7.0 billion, representing 65.4 percent of the annual target.
3. High level of pending bills which amounted to Kshs.6.39 billion as of 30 June 2024. Further, there was non-adherence to the pending bills payment plan by the County Treasury.
4. High wage bills accounted for 41.5 percent of the County's total revenue in FY 2023/24, which is above the ceiling provided by law.
5. Use of manual payroll. Personnel emoluments amounting to Kshs.261.23 million were processed through the manual payroll, accounting for 3.3 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
6. The county government uses commercial bank accounts for operations contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The commercial bank accounts are 306.
7. Low development expenditure which was 19.4 per cent of total expenditure.
- 10.High expenditure on domestic travel at Kshs.388.36 million

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with the timelines prescribed in Section 166 of the PFM Act, 2012.*
2. *The County should address its own-source revenue performance to ensure the approved budget is fully financed. Appropriate austerity measures should be implemented during a financial year to ensure expenditure commitments are aligned with available revenue.*
3. *The county leadership should address the situation of pending bills to ensure that genuine bills are paid promptly in the remaining financial year. Further, compliance with the payment plan should be enforced.*
4. *The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
5. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
6. *The County Government should ensure that bank accounts are opened and operated at the Central Bank of Kenya as the law requires. However, imprest bank accounts for petty cash and revenue collection accounts are exempted.*
7. *The County should prioritize expenditure on development projects to ensure adherence with the 30 per cent threshold in law.*
8. *The County should minimize travelling expenditure by holding activities within the County Headqua*

3.14.1 Overview of FY 2023/24 Budget

The County's approved supplementary budget for FY 2023/24 was Kshs.20.04 billion, comprising of Kshs.8.45 billion (42.2 per cent) and Kshs.11.59 billion (57.8 per cent) allocation for development and recurrent programmes, respectively. In the FY 2023/24, the County generated a total of Kshs.1.21 billion from its sources of revenue, inclusive of FIF and AIA. This amount represented an increase of 45.3 per cent compared to Kshs.661.68 million realized in FY 2022/23 and was 67.5 per cent of the annual target and 10.8 per cent of the equitable revenue share disbursed during the period. The increase in own source revenue can be attributed to the higher collection of FIF, which resulted from stringent revenue collection measures that sealed leakages. The revenue streams which contributed the highest OSR receipts are shown in Figure 54.

Figure 54: Kilifi County, Top Streams of Own Source Revenue in the FY 2023/24

The highest revenue stream of Kshs.472.22 million was from Hospital Fees, contributing to 39 per cent of the total OSR receipts during the reporting period.

3.14.3 Exchequer Issues

The Controller of Budget approved withdrawals of Kshs.14.51 billion from the CRF account during the reporting period, which comprised Kshs.4.29 billion (29.6 per cent) for development programmes and Kshs.10.22 billion

(70.4 per cent) for recurrent programmes. Analysis of the recurrent exchequers released in the FY 2023/24 indicates that Kshs.4.36 billion was released towards Employee Compensation and Kshs.5.86 billion for Operations and Maintenance expenditure.

The available cash balance in the County Revenue Fund Account at the end of FY 2023/24 was Kshs.1.47 billion.

3.14.4 County Expenditure Review

The County spent Kshs.15.42 billion on development and recurrent programmes in the reporting period. The expenditure represented 106.1 per cent of the total funds released by the CoB and comprised of Kshs.4.71 billion and Kshs.10.68 billion on development and recurrent programmes, respectively. Expenditure on development programmes represented an absorption rate of 55.8 per cent, while recurrent expenditure represented 92.1 per cent of the annual recurrent expenditure budget.

3.14.5 Settlement of Pending Bills

At the beginning of FY 2023/24, the County reported a stock of pending bills amounting to Kshs.2.21 billion, comprising of Kshs.870.95 million for recurrent expenditure and Kshs.1.34 billion for development activities. In the FY 2023/24, the County settled pending bills amounting to Kshs.988.54 million, which consisted of Kshs.238.53 million for recurrent expenditure and Kshs.750.02 million for development programmes. Therefore, as of the end of FY 2023/24, the outstanding amount was Kshs1.22 billion. This, however, excludes unpaid bills from FY 2023/24.

The County Assembly reported outstanding pending bills of Kshs.12.35 million as of 30th June 2024.

3.14.6 Expenditure by Economic Classification

Analysis of expenditure by economic classification indicates that the County Executive spent Kshs.3.74 billion on employee compensation, Kshs.5.94 billion on operations and maintenance, and Kshs.4.59 billion on development activities. Similarly, the County Assembly spent Kshs.456.26 million on employee compensation, Kshs.540.61 million on operations and maintenance, and Kshs.128.87 million on development activities, as shown in Table 3.92.

3.14.7 Expenditure on Employees' Compensation

In the FY 2023/24, expenditure on employee compensation was Kshs.4.19 billion, or 26.2 per cent of the available revenue, which amounted to Kshs.16.03 billion. Further analysis indicates that PE costs amounting to Kshs.3.94 billion were processed through the Integrated Personnel and Payroll Database (IPPD) system, while Kshs.256.99 million was processed through manual payrolls. The manual payrolls accounted for 7 per cent of the total PE cost.

The County Assembly spent Kshs.34.45 million on committee sitting allowances for the 56 MCAs against the annual budget allocation of Kshs.36.0 million. The average monthly sitting allowance was Kshs.51,268 per MCA. The County Assembly has established 23 Committees.

3.14.8 County Emergency Fund and County-Established Funds

Section 116 of the PFM Act 2012 allows County governments to establish other public funds with approval from the County Executive Committee and the County Assembly. The County allocated Kshs.1.0 billion to county-established funds in FY 2023/24, constituting 5 per cent of the County's overall budget. Further, the County allocated Kshs.250.0 million to the Emergency Fund in line with Section 110 of the PFM Act, 2012. Table 3.93 summarises each established Fund's budget allocation and performance during the reporting period.

Analysis of expenditure by departments shows that the Department of Agriculture recorded the highest absorption rate of development budget at 99.1 per cent, followed by the Department of Trade at 94.8 per cent. The County Assembly had the highest percentage of recurrent expenditure to budget at 99.7 per cent, while the Department of Forestry & Climate Change did not report any recurrent expenditure.

The departments reported instances of expenditures exceeding exchequer issues, which points to a weak internal control. The County Treasury should review internal control measures to avoid the diversion of funds between spending entities.

The report on budget implementation by programmes and sub-programmes was not prepared as per the prescribed templates by the County. Further, the report shows instances of expenditures above approved budget allocations which should be investigated and appropriate corrective actions taken by the County Treasury.

3.14.13 Accounts Operated Commercial Banks

The County government operated a total of 10 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.14.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget affected the timely preparation of the budget implementation report. The report was received on 5th August 2024 and was incomplete.
2. The under performance of own-source revenue at Kshs1.21 billion against an annual target of Kshs.1.59 billion, representing 67.9 per cent of the annual target.
3. Failure to refund unspent funds from FY 2022/23 into the CRF account, which led to actual expenditure being above the approved exchequer issues in several departments, as shown in Table 3.96.
4. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB within the timelines provided by law, which is against the requirement of Section 168 of the PFM Act, 2012. The reports for the County Executive Car Loan & Mortgage Fund and Kilifi County Health Improvement Fund were not submitted to the Controller of Budget.
5. High level of pending bills which amounted to Kshs.1.22 billion as of 30th June 2024. Further, there was non-adherence to the payment plan for the pending bills by the County Treasury.
6. Use of manual payroll. Personnel emoluments amounting to Kshs.256.99 million were processed through the manual payroll, accounting for 6.1 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
7. Failure to report as per the CoB Reporting templates resulted in some departments not reporting their performances in expenditures by programs and sub-programs and others omitting crucial information, i.e. submitting only program and subprograms numbers without titles, budget lines & expenditures, resulting in inconsistency in financial reporting.
8. High expenditure on domestic travel at Kshs.346.38 million

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with the timelines prescribed in Section 166 of the PFM Act, 2012.*
2. *The County should address its own-source revenue performance to ensure the approved budget is fully financed. Appropriate austerity measures should be implemented to ensure expenditure commitments are aligned with available revenue.*
3. *The County Treasury should ensure unspent funds from the previous financial year are deposited to the CRF Account in line with Section 136 of the PFM Act 2012.*
4. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
5. *The county leadership should address the situation of pending bills to ensure that genuine bills are paid promptly in the next financial year. Further, compliance with the payment plan should be enforced.*
6. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*

7. *The County should ensure strict reporting using the CoB Templates to eliminate inconsistencies in financial reporting. Responsible officers should be trained on the use of prescribed reporting requirements.*
8. *The County should minimize travelling expenditure by holding activities within the County Headquarters.*

Sub-programmes with the highest levels of implementation based on absorption rates were Infrastructure Development Services in the Department of Transport and Infrastructure at 99.9 per cent, Finance Services in the Department of Finance and Economic Planning at 99.9 per cent, General Administration in the Department of Education at 99.6 per cent, and General Administration and Planning in the Department of Transport and Infrastructure at 99.4 per cent of budget allocation.

3.15.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget affected the timely preparation of the budget implementation report. The report was received on 02/08/2024.
2. High level of pending bills, which amounted to Kshs.581.25 million as of 30th June 2024. Further, there was non-adherence to the payment plan for the pending bills by the County Treasury.
3. High wage bills which accounted for 46.4 per cent of the County total revenue in FY 2023/24 which is above the ceiling provided in law.
4. Use of manual payroll. Personnel emoluments amounting to Kshs.174.68 million were processed through the manual payroll, accounting for 6.0 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
5. Low expenditure on development programmes which accounted for 21.7 per cent of total expenditure.
6. High expenditure on domestic travel at Kshs.364.82 million

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with the timelines prescribed in Section 166 of the PFM Act, 2012.*
2. *The County leadership should review all pending bills to ensure that genuine bills are paid promptly in the next financial year. Further, compliance with the payment plan should be enforced.*
3. *The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
4. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
5. *The County should prioritize expenditure on development programmes to meet the legal threshold of 30 per cent.*

The sub-programmes with the highest implementation levels based on absorption rates were Oversight and Legislative Services in the County Assembly at 99.6 per cent, Administration and Support Services in the County Assembly at 98.8 per cent, Stakeholder Management in the Department of Administration and Stakeholder Management at 98.2 per cent, and Crop Development Headquarters at 96.2 per cent of budget allocation.

3.16.13 Accounts Operated Commercial Banks

The County government operated 16 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.16.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. The County Treasury's late submission of financial reports to the Controller of Budget affected the timely preparation of the budget implementation report. The full report was received on 2nd August 2024.
2. Low absorption of development funds as indicated by the expenditure of Kshs.1.26 billion from the annual development budget allocation of Kshs.4.34 billion. The development expenditure represented 29.2 per cent of the annual development budget.

3. Own-source revenue under performed at Kshs.496.94 million against an annual target of Kshs.650 million, representing 76. per cent of the annual target.
4. There was a high level of pending bills, which amounted to Kshs.2.36 billion as of 30th June 2024. Further, the County Treasury did not adhere to the payment plan for the pending bills.
5. High wage bills accounted for 50.6 per cent of the County's total revenue in FY 2023/24, which is above the ceiling provided by law.
6. Use of manual payroll. Personnel emoluments amounting to Kshs.75.3 million were processed through manual payroll, accounting for 1.2 per cent of the total payroll cost. Manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
7. The county government uses commercial bank accounts for operations contrary to Regulations 82(1) (b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The commercial bank accounts are for Conditional Grants/ Additional allocations and established County Funds.
8. High expenditure on domestic travel at Kshs.305.45 million

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with the timelines prescribed in Section 166 of the PFM Act, 2012.*
2. *The County should identify and address issues causing delays in implementing development projects.*
3. *The County should address its own-source revenue performance to ensure the approved budget is fully financed. Appropriate austerity measures should be implemented to ensure expenditure commitments are aligned with available revenue.*
4. *The county leadership should address the situation of pending bills to ensure that genuine bills are paid promptly. Further, compliance with the payment plan should be enforced.*
5. *The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
6. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
7. *The County Government should ensure that bank accounts are opened and operated at the Central Bank of Kenya as the law requires. However, imprest bank accounts for petty cash and revenue collection accounts are exempted.*
8. *The County should minimize travelling expenditure by holding activities within the County Headquarters.*

The sub-programmes with the highest levels of implementation based on absorption rates were Budget formulation and coordination Services in the Department of Finance, Economic Planning and ICT Services at 99.5 per cent, General Administration and Planning Services in the Department of Infrastructure, Roads and Public Works at 81.1 per cent, Planning and Administration in the Department of Public Service, County Administration and Participatory Development and Office of the Governor at 61.4 per cent, and Revenue Mobilization at 41.6 per cent of budget allocation.

3.17.13 Accounts Operated Commercial Banks

The County government operated a total of 8 accounts with commercial banks. These accounts include Kisumu County Education Fund; Kisumu County Emergency Fund; Kisumu County Assembly MCA's and staff Car Loan and Mortgage Fund; Kisumu County Trade Fund; Kisumu County Women Youth and PWD Fund; Kisumu County Executive Car Loan and Mortgage Fund; Kisumu county Emergency Response Fund; and Kisumu Costs and Contingency Fund. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.17.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. The County Treasury's late submission of financial reports to the Controller of Budget affected the timely preparation of the budget implementation report, which was received on 2nd August 2024.
2. Own-source revenue under performed at Kshs.1.43 billion against an annual target of Kshs.2.28 billion, representing 63.2 per cent of the annual target.

3. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB within the timelines provided in law, which is against the requirement of Section 168 of the PFM Act, 2012. The Kisumu County Emergency Fund, Kisumu County Bursary Fund and Kisumu County Assembly car and Mortgage Fund reports were not submitted to the Controller of Budget.
4. There was a high level of pending bills, which amounted to Kshs.3.15 billion as of 30th June 2024. Further, the County Treasury did not adhere to the payment plan for the pending bills.
5. High wage bills accounted for 44.6 per cent of the County's total revenue in FY 2023/24, which is above the ceiling provided in law.
6. Use of manual payroll. Personnel emoluments amounting to Kshs.236.04 million were processed through manual payroll, accounting for 4.6 per cent of the total payroll cost. Manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
7. The County government uses commercial bank accounts for operations contrary to Regulations 82(1) (b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The commercial bank accounts are for: Kisumu County Education Fund; Kisumu County Emergency Fund; Kisumu County Assembly MCA's and staff Car Loan and Mortgage Fund; Kisumu County Trade Fund; Kisumu County Women Youth and PWD Fund; Kisumu County Executive Car Loan and Mortgage Fund; Kisumu County Emergency Response Fund; and Kisumu Costs and Contingency Fund.
8. Weak budgeting practice, as shown in Table 3.118 where the total allocations and actual expenditures per department are not reconcilable with the corresponding vote books.
9. Low expenditure on development activities which was 17.5 per cent of total expenditure in FY 2023/24.
11. High expenditure on domestic travel at Kshs.389.09 million

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with the timelines prescribed in Section 166 of the PFM Act, 2012.*
2. *The County should address its own-source revenue performance to ensure the approved budget is fully financed. Appropriate austerity measures should be implemented to ensure expenditure commitments are aligned with available revenue.*
3. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
4. *The County leadership should address the situation of pending bills to ensure that genuine bills are paid promptly in the next financial year. Further, compliance with the payment plan should be enforced.*
5. *The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35.0 per cent of total revenue, as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
6. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
7. *The County Government should ensure that bank accounts are opened and operated at the Central Bank of Kenya as the law requires. However, imprest bank accounts for petty cash and revenue collection accounts are exempted.*
8. *The County Treasury should improve the vote book and budgetary control to ensure expenditure is within the approved budget. This will enhance the credibility of budget implementation reports.*

9. The County Government should develop and implement strategies to increase expenditure on the development budget to achieve the 30 per cent threshold provided in the law.
10. The County should minimize travelling expenditure by holding activities within the County Headquarters.

The report on budget execution by programmes and sub-programmes showed that programmes under the Office of the Governor, Finance, Economic Planning and Revenue Management, Energy Environment and Forestry, Roads, Public Works and Transport and Mwingi Municipality had expenditures above approved budget allocations. The absorption rate above 100 per cent is irregular and should be addressed by respective accounting officers.

3.18.13 Accounts Operated Commercial Banks

The County government operated a total of 5 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.18.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget affected the timely preparation of the budget implementation report. The report was received on 30th July 2024.
2. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB within the timelines provided in law, which is against the requirement of Section 168 of the PFM Act, 2012. The reports for the empowerment fund were not submitted to the Controller of Budget.
3. High level of pending bills which amounted to Kshs.393.98 million as of 30th June 2024. Further, there was non-adherence to the pending bills payment plan by the County Treasury.
4. High wage bills which accounted for 40.5 per cent of the County total revenue in FY 2023/24 which is above the ceiling provided in law.
5. Use of manual payroll. Personnel emoluments amounting to Kshs.137.83 million were processed through the manual payroll, accounting for 5.1 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
6. Excessive foreign travel by the County Assembly, which is not prudent.
7. High expenditure on domestic travel at Kshs.387.36 million

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with the timelines prescribed in Section 166 of the PFM Act, 2012.*

2. The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.
3. County leadership should address the situation of pending bills to ensure that genuine bills are paid promptly in the next financial year. Further, compliance with the payment plan should be enforced.
4. The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.
5. The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.
6. The County Assembly should curb the excessive foreign travel and instead train locally, if need be, to conserve resources.
7. The County should minimize travelling expenditure by holding activities within the County Headquarters.

3.19.1 Overview of FY 2023/24 Budget

Sub-programmes with the highest levels of implementation based on absorption rates were: County Garbage and Cleaning Services in the Department of Public Services and Administration at 162.0 per cent, Sub-county Administration Matuga in the Department of Public Services and Administration at 145.0 per cent, Crop Production and Food Security in the Department of Agriculture, Livestock and Fisheries at 117.0 per cent, and Dairy and Meat production at 111.0 per cent of budget allocation.

3.19.12 Accounts Operated Commercial Banks

The County government operated 35 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.19.13 Key Observations and Recommendations

While overseeing and reporting on the county budget implementation, the COB identified the following challenges that hampered effective budget implementation.

1. Late submission of financial reports by the County Treasury to the Controller of Budget affected the timely preparation of the budget implementation report. The report was received on 30th Jul, 2024.
2. The under performance of own-source revenue at Kshs.427.38 million against an annual target of Kshs.600 million, representing 71.2 per cent of the annual target.
3. High level of pending bills amounted to Kshs.2.21 billion as of 30th June 2024.
4. Use of commercial bank accounts for operations contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The commercial bank accounts are for imprest, established Funds, Conditional grants, revenue collection and health facilities.

5. The reported expenditure on development activities accounted for 29.2 per cent of total expenditure, which is below the threshold of 30 per cent as provided under Regulation 25 (1) of the Public Finance Management (County Governments) Regulations 2015.
6. The administration costs of the Bursary & Scholarship Fund, Kwale County Climate Change Fund, and Car Loan & Mortgage Fund (County Assembly) were above the 3 per cent limit of the Fund budget set in Regulation 197(1)(d) of the Public Finance Management (County Governments) Regulations, 2015.
7. High expenditure on domestic travel at Kshs.444.19 million

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with the timelines prescribed in Section 166 of the PFM Act, 2012.*
2. *The County should address its own-source revenue performance to ensure the approved budget is fully financed. Appropriate austerity measures should be implemented to ensure expenditure commitments are aligned with available revenue.*
3. *The County leadership should address the situation of pending bills to ensure that genuine bills are paid promptly in the next financial year. Adherence to the approved payment plan should be observed.*
4. *The County Government should ensure that bank accounts are opened and operated at the Central Bank of Kenya as the law requires. However, imprest bank accounts for petty cash and revenue collection accounts are exempted.*
5. *The County Government should develop and implement strategies to increase expenditures on the development budget to achieve the 30 per cent threshold provided in law.*
6. *The CECM-Finance should review the administration costs of established funds to ensure that they are within the legal limits provided in law.*
7. *The County should minimize travelling expenditure by holding activities within the County Headquarters.*

The sub-programmes with the highest levels of implementation based on absorption rates were: Educational scholarship in the Department of Education at 100 per cent, Planning and Implementation of Infrastructure at 100 per cent, Car loan and mortgage in the Department of Assembly at 100 per cent of budget allocation.

3.20.14 Accounts Operated Commercial Banks

The County government operated 12 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.20.15 Key Observations and Recommendations

While overseeing and reporting on the county budget implementation, the COB identified the following challenges that hampered effective budget implementation.

1. Late submission of financial reports by the County Treasury to the Controller of Budget affected the timely preparation of the budget implementation report. The report was received on 31st July, 2024.
2. The under performance of own-source revenue at Kshs.499.99 million against an annual target of Kshs.842.5 million, representing 59.3 per cent of the annual target.
3. High level of pending bills, which amounted to Kshs.1.65 billion as of 30th June 2024. Further, there was non-adherence to the payment plan for the pending bills by the County Treasury.
4. High wage bills which accounted for 54.3 per cent of the County total revenue in FY2023/24 which is above the ceiling provided in law.
5. Use of manual payroll. Personnel emoluments amounting to Kshs.528.21 million were processed through the manual payroll, accounting for 16.1 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
6. Use of commercial bank accounts for operations contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya.

7. There was low expenditure on development programmes, which was 23 per cent of total expenditure in FY 2023/24. This is below the legal threshold of 30 per cent.

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with the timelines prescribed in Section 166 of the PFM Act, 2012.*
2. *The County should address its own-source revenue performance to ensure the approved budget is fully financed. Appropriate austerity measures should be implemented to ensure expenditure commitments are aligned with available revenue.*
3. *The county leadership should address the situation of pending bills to ensure that genuine bills are paid promptly in the next financial year. Further, compliance with the payment plan should be enforced.*
4. *The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
5. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
6. *The County Government should ensure that bank accounts are opened and operated at the Central Bank of Kenya as the law requires. However, imprest bank accounts for petty cash and revenue collection accounts are exempted.*
7. *The County should prioritize expenditure on development programmes to ensure the legal provision of 30 per cent is met.*

The sub-programmes with the highest levels of implementation based on absorption rates were Promotion of early childhood education and Social Services at 100 per cent, Youth and Sports in the Department of Education, Technology, Youth Affairs, Gender and Sports at 100 per cent, and Preventive and Promotive services in the Department of Medical Services at 100 per cent of budget allocation.

3.21.13 Accounts Operated Commercial Banks

The County government operated 24 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.21.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. High wage bills which accounted for 44.4 per cent of the County total revenue in FY 2023/24 which is above the ceiling provided in law.
2. Use of manual payroll. Personnel emoluments amounting to Kshs.190.43 million were processed through the manual payroll, accounting for 11.5 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
3. Uses commercial bank accounts for operations contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya.
4. Low expenditure on development activities which was 23.2 per cent of total expenditure in FY 2023/24 and below the 30 per cent threshold provided in law.

The County should implement the following recommendations to improve budget execution:

1. *The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
2. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
3. *The County Government should ensure that bank accounts are opened and operated at the Central Bank of Kenya as the law requires. However, imprest bank accounts for petty cash and revenue collection accounts are exempted.*
4. *The County Treasury should prioritize expenditure on development activities to ensure that the legal limit of 30 per cent of the approved budget is achieved.*

Sub-programmes with the highest levels of implementation based on absorption rates were: General administration and support services in the Department of Agriculture, Food Security and Co-operative Development at 118.1 per cent, representation, oversight and legislation in the County Assembly at 100 per cent, County fleet management in the Department of Roads, Transport and Public Works at 100 per cent, and Industrialization and Innovation Trade, Industry, Tourism & Innovation at 98.4 per cent of budget allocation.

3.22.13 Accounts Operated Commercial Banks

The County government operated a total of 33 bank accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.22.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the county budget, the COB identified the following challenges that hampered effective budget implementation.

1. Late submission of financial reports by the County Treasury to the Controller of Budget affected the timely preparation of the budget implementation report. The report was received on 30 July, 2024.
2. The under performance of own-source revenue at Kshs.1.55 billion against an annual target of Kshs.3.43 billion, representing 45.1 per cent of the annual target.
3. The diversion of funds by the County Treasury and weak budgeting practice, as shown in Table 3.152, where the county incurred expenditure over approved exchequer issues.
4. High level of pending bills which amounted to Kshs.4.26 billion as of 30 June 2024. Further, there was non-adherence to the pending bills payment plan by the County Treasury.
5. High wage bills accounted for 55.3 per cent of the County's total revenue in FY 2023/24, which is above the ceiling provided in law.
6. Use of manual payroll. Personnel emoluments amounting to Kshs.599.51 million were processed through the manual payroll, accounting for 8.8 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
7. The county government uses commercial bank accounts for operations contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The commercial bank accounts are twenty-nine (33).

8. Law expenditure on domestic travel at 652.76 million which should be addressed to avail funds for key development activities.

12. High expenditure on domestic travel at Kshs.364.82 million

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with the timelines prescribed in Section 166 of the PFM Act, 2012.*
2. *The County should address its own-source revenue performance to ensure the approved budget is fully financed. Appropriate austerity measures should be implemented to ensure expenditure commitments are aligned with available revenue.*
3. *The County Treasury should improve the Vote book and budgetary control to ensure expenditure is within the approved budget.*
4. *County leadership should address the situation of pending bills to ensure that genuine bills are paid promptly in the next financial year. Further, compliance with the payment plan should be enforced.*
5. *The County should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
6. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
7. *The County Government should ensure that bank accounts are opened and operated at the Central Bank of Kenya as the law requires. However, imprest bank accounts for petty cash and revenue collection accounts are exempted.*
8. *The County should prioritize expenditures on development programme to ensure it meets the legal limit of 30 per cent .*
9. *The County should reduce expenditure on travelling by holding their activities within the County.*

3.23.1 Overview of FY 2023/24 Budget

The County's approved second supplementary budget for FY 2023/24 was Kshs.11.18 billion, comprising Kshs.3.33 billion (29.8 per cent) and Kshs.7.85 billion (70.2 per cent) allocation for development and recurrent programmes. The approved supplementary budget estimates represented an increase of 3.9 per cent compared to the previous financial year when it was Kshs.10.76 billion comprised of Kshs.3.27 billion for development expenditure and Kshs.7.49 billion for recurrent expenditure.

In FY 2023/24, the County generated a total of Kshs.1.04 billion from its sources of revenue, inclusive of FIF. This amount represented an increase of 241.7 per cent compared to Kshs.305.71 million realized in FY 2022/23 and was 84.2 per cent of the annual target and 13.2 per cent of the equitable revenue share disbursed during the period. The OSR includes revenue arrears and penalties charged on fees and levies from previous financial years of Kshs.16.18 million.

An increase in Own-Source Revenue (OSR) can be attributed to the timely issuing of invoices and demand notes to clients following consultative meetings. To enhance the collected fees, the County has improved revenue generation in semi-autonomous entities, such as the Makueni Fruit Processing and the Sand Authority. Additionally, the County is transitioning to a cashless revenue collection system by automating its revenue services.

The revenue streams which contributed the highest OSR receipts are shown in Figure 90.

3.23.13 Accounts Operated Commercial Banks

The County government operated 17 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash, Own Source Revenue collection, and sweeping accounts.

3.23.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. Late submission of Financial returns, OCoB noted partial inconsistencies in reported County non-financial and financial returns as of June 2024.
2. Use of manual payroll. Personnel emoluments amounting to Kshs.371.41 million were processed through manual payroll, accounting for 8.4 per cent of the total payroll cost. Manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
3. The County government uses commercial bank accounts for operations contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015 which required that County government bank accounts must be opened and maintained at the Central Bank of Kenya. The commercial bank accounts are for the County Funds, receipt and management of Hospital funds.
4. Table 3.156 show the failure to observe fiscal discipline in the utilization of authorized exchequers, with ratios between some departments and granted exchequers greater than 100 per cent.
5. High pending bills of Kshs. 672.04 million and failure to adhere to the payment plan.
6. Failure to submit financial statements for the County Established funds as per the requirements of Section 168 of the PFM Act,2012.
7. Law expenditure on development programmes which was 22.9 per cent of total expenditure in the period.

The County should implement the following recommendations to improve budget execution:

1. *The county is to observe the submission of statutory returns and the accuracy of the financial returns.*
2. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
3. *The County Government should ensure that bank accounts are opened and operated at the Central Bank of Kenya as the law requires. However, imprest bank accounts and revenue collection accounts are exempted.*
4. *The County should observe fiscal discipline in the utilization of authorized exchequers.*
5. *The County should address the situation of pending bills to ensure genuine bills are paid promptly in the next financial year. Further, compliance with the payment plan should be enforced.*
6. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports inline with PFM Act, 2012.*
7. *The County should prioritise expenditure on development programmes to meet the legal requirement of 30 per cent.*

3.24. County Government of Mandera

3.24.1 Overview of FY 2023/24 Budget

The County's approved supplementary budget for FY 2023/24 was Kshs.13.0 billion, comprising Kshs.4.71 billion (36.3 per cent) and Kshs.8.29 billion (63.7 per cent) allocation for development and recurrent programmes, respectively. The approved budget estimates represented an increase of 2.3 per cent compared to the previous financial year when it was Kshs.12.71 billion and comprised of Kshs.4.29 billion towards development expenditure and Kshs.8.42 billion for recurrent expenditure.

To finance the budget, the County expected to receive Kshs.11.63 billion (89.5 per cent) as the equitable share of revenue raised nationally, Kshs.512.08 million as additional allocations/conditional grants, a cash balance of Kshs.525.03 million (4 per cent) brought forward from FY 2022/23, and generate Kshs.330.53 million (2.5 per cent) as gross own source revenue. The County does not have governing legislation on the operation of ordinary A-I-A and FIF. Figure 93 shows the trend in own-source revenue collection from the FY 2017/18 to the FY 2023/24.

In FY 2023/24, the County generated a total of Kshs.168.75 million from its sources of revenue, including FIF and AIA. This amount represented an increase of 37.1 per cent compared to Kshs.122.53 million realized in FY 2022/23 and was 50.8 per cent of the annual target and 3.1 per cent of the equitable revenue share disbursed during the period. The increase in OSR is attributed to improved collection due to enforcement, automation and relative stability of the county security situation. The revenue streams which contributed the highest OSR receipts are shown in Figure 94.

Figure 94: Top Streams of Own Source Revenue in the FY 2023/24

Source: Mandera County Treasury

The highest revenue stream, Kshs.42.53 million, was from Land Rates, which contributed 25 per cent of the total OSR receipts during the reporting period.

3.24.3 Exchequer Issues

The Controller of Budget approved withdrawals of Kshs.11.7 billion from the CRF account during the reporting period, which comprised Kshs.3.89 billion (33.3 per cent) for development programmes and Kshs.7.81 billion (66.7 per cent) for recurrent programmes. Analysis of the recurrent exchequers released in the FY 2023/24 indicates that Kshs.4.46 billion was released towards Employee Compensation and Kshs.3.35 billion for Operations and Maintenance expenditure.

The available cash balance in the County Revenue Fund Account at the end of FY 2023/24 was Kshs.52.69 million.

3.24.4 County Expenditure Review

The County spent Kshs.11.7 billion on development and recurrent programmes in the reporting period. The expenditure represented 100 per cent of the total funds released by the CoB and comprised of Kshs.3.89 billion and Kshs.7.81 billion on development and recurrent programmes, respectively. Expenditure on development programmes represented an absorption rate of 82.6 per cent, while recurrent expenditure represented 94.3 per cent of the annual recurrent expenditure budget.

3.24.5 Settlement of Pending Bills

At the beginning of FY 2023/24, the County reported a stock of pending bills amounting to Kshs.2.09 billion for development activities. In FY 2023/24, the County settled pending bills amounting to Kshs.675.43 million. Therefore, as of the end of FY 2023/24, the outstanding amount was Kshs.2.23 billion. The reported pending bills include those incurred in FY 2023/24 because of non-receipt of the June 2024 equitable share of Kshs.930.56 million.

The County Assembly did not report any outstanding pending bills as of 30th June 2024.

3.24.6 Expenditure by Economic Classification

Analysis of expenditure by economic classification indicates that the County Executive spent Kshs.4.11 billion on employee compensation, Kshs.2.95 billion on operations and maintenance, and Kshs.3.69 billion on development activities. Similarly, the County Assembly spent Kshs.350.55 million on employee compensation,

Kshs.397.79 million on operations and maintenance, and Kshs.206.45 million on development activities, as shown in Table 3.162.

3.24.7 Expenditure on Employees' Compensation

In the FY 2023/24, expenditure on employee compensation was Kshs.4.46 billion, or 37.8 per cent of the available revenue, which amounted to Kshs.11.8 billion. This expenditure represented an increase from Kshs.3.99 billion reported in FY 2022/23. The wage bill included Kshs.1.45 billion paid to health sector employees, translating to 32 per cent of the total wage bill. This increase in personnel emoluments compared to the previous financial year is attributed to the payment of prior year salaries in the current financial year due to a shortfall in revenue and the new housing levy. The trend of personnel expenditure as a percentage of total revenue from FY 2017/18 to FY 2023/24 is shown in Figure 95.

Figure 95: Mandera County, Percentage of Wage Bill to Total Revenue from FY 2017/18 to FY 2023/24

Further analysis indicates that PE costs amounting to Kshs.4.17 billion were processed through the Integrated Personnel and Payroll Database (IPPD) system, while Kshs.288.14 million was processed through manual payrolls. The manual payrolls accounted for 6.5 per cent of the total PE cost.

The County Assembly spent Kshs.15.20 million on committee sitting allowances for the 50 MCAs against the annual budget allocation of Kshs.15.21 million. The average monthly sitting allowance was Kshs.24,845 per MCA. The County Assembly has established 23 Committees.

3.24.8 County Emergency Fund and County-Established Funds

Section 116 of the PFM Act 2012 allows County governments to establish other public funds with approval from the County Executive Committee and the County Assembly. The County allocated Kshs.460 million to the Bursary Fund in FY 2023/24, constituting 3.5 per cent of the County's overall budget. Table 3.163 summarises the established Fund's budget allocation and performance during the reporting period.

Sub-programmes with the highest levels of implementation based on absorption rates were: Leadership and county coordination in the Department of County Secretary at 100 per cent, Community Cohesion in the Department of Public Service Management at 100 per cent, Vocational and Technical training services in the Department of Education at 100 per cent, and Irrigation Development and Management in the Department of Agriculture at 100 per cent of budget allocation.

3.24.13 Accounts Operated Commercial Banks

The County government operated 22 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.24.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the

following challenges which hampered effective budget implementation;

1. The under performance of own-source revenue at Kshs.168.75 million against an annual target of Kshs.330.53 million, representing 50.8 per cent of the annual target.
2. High pending bills, which amounting to Kshs.2.23 billion as of 30th June 2024.
3. High wage bills accounting for 37.8 per cent of the County total revenue in FY 2023/24 which is above the ceiling provided in law.
4. Use of manual payroll. Personnel emoluments amounting to Kshs.288.14 million were processed through the manual payroll, accounting for 6.5 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.

The County should implement the following recommendations to improve budget execution:

1. *The County should address its own-source revenue performance to ensure the approved budget is fully financed. Appropriate austerity measures should be implemented to ensure expenditure commitments are aligned with available revenue.*
2. *County leadership should address the situation of pending bills to ensure that genuine bills are paid promptly in the following financial year and in line with an approved payment plan.*
3. *The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
4. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*

3.25.13 Accounts Operated Commercial Banks

The County government operated a total of 11 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.25.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget affected the timely preparation of the budget implementation report. The report was received on 24 July 2024.
2. The under performance of own-source revenue at Kshs.145.09 million against an annual target of Kshs.190.00 million, representing 76.3 per cent of the annual target.
3. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB within the timelines provided by law, which is against the requirement of Section 168 of the PFM Act, 2012. The reports for the Scholarship, Emergency, Car Loan and Mortgage- Executive & County Assembly funds were not submitted to the Controller of Budget.
4. High level of pending bills by the County Executive which amounted to Kshs.1.13 billion as of 30 June 2024. Further, there was non-adherence to the pending bills payment plan by the County Treasury.

5. A high wage bill accounted for 41.3 per cent of the County's total revenue in FY 2023/24, which is above the ceiling provided in law.
6. Use of manual payroll. Personnel emoluments amounting to Kshs.562.33 million were processed through the manual payroll, accounting for 16.9 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
7. The county government uses commercial bank accounts for operations contrary to Regulations 82(1) (b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The commercial bank accounts are for the Executive Mortgage Scheme, County Assembly Members Car Loan Scheme, Marsabit County Assembly staff car loan and mortgage schemes, Emergency Fund Account, Marsabit County operation account, Development Operations Account, County Deposit /retention account, cultural festival account, sub-counties operation account and three other accounts for conditional grants.
8. Weak budgeting practice, as shown in Table 3.173, where the County incurred expenditure over approved exchequer issues in several departments.

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with the timelines prescribed in Section 166 of the PFM Act, 2012.*
2. *The County should address its own-source revenue performance to ensure the approved budget is fully financed. Appropriate austerity measures should be implemented to ensure expenditure commitments are aligned with available revenue.*
3. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
4. *The county leadership should address the situation of pending bills to ensure that genuine bills are paid promptly in the remaining financial year. Further, compliance with the payment plan should be enforced.*
5. *The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
6. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
7. *The County Government should ensure that bank accounts are opened and operated at the Central Bank of Kenya as the law requires. However, imprest bank accounts for petty cash and revenue collection accounts are exempted.*
8. *The County Treasury should improve the Vote book and budgetary control to ensure expenditure is within the approved budget.*

Health Facility Improvement Fund (FIF) exceeded the annual target of Kshs.500.00 million by Kshs.80.13 million and registered 116.0 per cent of the annual target for the revenue stream. This was because of the introduction of the cashless system that has led to exceeding the target.

Figure 101 shows the trend in own-source revenue collection from the FY 2017/18 to the FY 2023/24.

In FY 2023/24, the County generated a total of Kshs.972.21 million from its sources of revenue, including FIF and AIA. This amount represented an increase of 32.0 per cent compared to Kshs.736.69 million realized in FY 2022/23 and was 91.2 per cent of the annual target and 10.4 per cent of the equitable revenue share disbursed during the period. The revenue streams which contributed the highest OSR receipts are shown in Figure 102.

Analysis of expenditure by departments shows that the Departments of Agriculture, Livestock & Fishery at 93.1 per cent. The County Assembly had the highest percentage of recurrent expenditure to budget at 100.0 per cent. In contrast, the Departments of Trade, Investment, Industrialization, Tourism & Co-op Development, and the County Public Service Board had the lowest at 70.4 per cent.

The over-expenditure above the exchequer requisitions in several departments were due to failure to refund unspent money at the closure of the previous financial year to the County Revenue Fund and use of these funds at source against the requirements of Section 136 of the PFM Act, 2012.

Sub-programmes with the highest levels of implementation based on absorption rates were: Agricultural Training Centre (KAGURU) in the Department of Agriculture, Livestock Development & Fisheries, Meru County Revenue Board in the Department of Finance Economic Planning & ICT Agriculture Legislation and Representation, and Legislative Oversight in the Department of County Assembly at 100.0 per cent, Human Resource in the Department of Public Service Administration & Legal Affairs at 99.8 per cent, Meru Youth Service in the Department of Youth Affairs & Sports at 99.7 per cent, and Accounts in the Department of Finance Economic Planning & ICT at 99.6 per cent of budget allocation.

The Agricultural Services in the department of Agriculture, Livestock Development & Fisheries had over absorption of 192.7 per cent which should be investigated by the County Treasury and a report filed with the relevant public finance oversight institutions.

3.26.13 Accounts Operated Commercial Banks

The County government operated 29 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.26.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget affected the timely preparation of the budget implementation report. The report was received from 31st July to 2nd August, 2024.
2. High level of pending bills which amounted to Kshs.586.82 million as of 30th June 2024. Further, there was non-adherence to the pending bills payment plan by the County Treasury.
3. High wage bills which accounted for 45.8 per cent of the County total revenue in FY 2023/24 which is above the ceiling provided in law.
4. Use of manual payroll. Personnel emoluments amounting to Kshs.128.27 million were processed through the manual payroll, accounting for 2.5 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
5. The county government uses commercial bank accounts for operations contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya.

6. High expenditure on domestic travel at Kshs.419.9 million which should be reduced to avarad funds for key development programmes.

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with the timelines prescribed in Section 166 of the PFM Act, 2012.*
2. *The county leadership should address the situation of pending bills to ensure that genuine bills are paid promptly in the next financial year. Further, compliance with the payment plan should be enforced.*
3. *The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
4. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
5. *The County Government should ensure that bank accounts are opened and operated at the Central Bank of Kenya as the law requires. However, imprest bank accounts for petty cash and revenue collection accounts are exempted.*
6. *The County should hold activities within the County headquarters to reduce expenditure on domestic travel.*

Sub-programmes with the highest levels of implementation based on absorption rates were: Water Conservation, protection, & Governance in the Department of Water and Energy at 277.2 per cent, Industrial & enterprise development in the Department of Trade, Tourism, Industry, Market & Cooperative Development at 160.6 per cent, Environmental health services in the Department of Medical Services at 154.8 per cent, and Emergency Activities Fund in the Department of Finance & Economic Planning at 143.8 per cent of budget allocation.

3.27.13 Accounts Operated Commercial Banks

The County government operated a total of 208 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.27.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget affected the timely preparation of the budget implementation report. The final reports were received on 24th July 2024 against a stipulated timeline of 15th July 2024
2. The under performance of own-source revenue at Kshs.512.69 million against an annual target of Kshs.625.47 million, representing 81.9 per cent of the annual target.

3. Poor management of inter-departmental vote books by the County Treasury and weak budgeting practice, as shown in Table 3.185, where the County incurred expenditure over approved exchequer issues and diversion of funds
4. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB within the timelines provided in law, which is against the requirement of Section 168 of the PFM Act, 2012. The reports for the County Assembly Car Loans & Mortgage Fund Scheme Fund were not submitted to the Controller of Budget as of 15th July 2024
5. High level of pending bills which amounted to Kshs.864.39 million as of 30th June 2024. Further, there was non-adherence to the pending bills payment plan by the County Treasury.
6. High wage bills accounted for 37.1 per cent of the County's total revenue in FY 2023/24, which is above the ceiling provided in law.
7. Use of manual payroll. Personnel emoluments amounting to Kshs.133.27 million were processed through the manual payroll, accounting for 3.7 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
8. The County government uses commercial bank accounts for operations contrary to Regulations 82(1) (b) of the PFM (County Governments) Regulations, 2015 which required that County government bank accounts must be opened and maintained at the Central Bank of Kenya. The commercial bank accounts are mainly for County Health facilities & Dispensaries and for various departments' office operations and activities.
9. High expenditure on domestic travel at Kshs.359.55 million.

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with the timelines prescribed in Section 166 of the PFM Act, 2012.*
2. *The County should address its own-source revenue performance to ensure the approved budget is fully financed. Appropriate austerity measures should be implemented to ensure expenditure commitments are aligned with available revenue.*
3. *The County Treasury should improve the Vote book and budgetary controls to ensure expenditure is within the approved budget and exchequer releases.*
4. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
5. *The county leadership should address the situation of pending bills to ensure that genuine bills are paid promptly in the remaining financial year. Further, compliance with the payment plan should be enforced.*
6. *The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
7. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
8. *The County Government should ensure that bank accounts are opened and operated at the Central Bank of Kenya as the law requires. However, imprest bank accounts for petty cash and revenue collection accounts are exempted.*
9. *The County should reduce expenditure on travelling by holding activities within the county headquarters.*

The sub-programmes with the highest levels of implementation based on absorption rates were Governor's and Deputy Governor's Affairs in the Department of the Executive at 99.7 per cent, Water Supply and Management in the Department of Water, Natural Resources & Climate Change Resilience at 99.6 per cent, and Trade Development and Markets/ Consumer Protection in the Department of Tourism, Culture & Trade at 91.8 per cent of budget allocation.

3.28.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget affected the timely preparation of the budget implementation report. The report was received on 12th August 2024.
2. The diversion of funds by the County Treasury and weak budgeting practice, as shown in Table 3.192, caused the county to incur expenditure in excess of the approved exchequer issues in several departments.
3. The under performance of own-source revenue is Kshs.5.59 billion against an annual target of Kshs.7.38 billion, representing 75.7 per cent of the annual target.
4. There was a high level of pending bills, which amounted to Kshs.4.44 billion as of 30th June 2024. Further, the county Treasury did not adhere to the pending bills payment plan.
5. High wage bills accounted for 50 per cent of the County's total revenue in FY2023/24, which is above the ceiling provided in law.
6. Use of manual payroll. Personnel emoluments amounting to Kshs.435.00 million were processed through the manual payroll, accounting for 6.3 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
7. Low expenditure on development activities, which accounted for 16.2 per cent of total expenditure in the FY 2023/24, which is below the 30 per cent threshold provided in law.

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with the timelines prescribed in Section 166 of the PFM Act, 2012.*
2. *The County should address its own-source revenue performance to ensure the approved budget is fully financed. Appropriate austerity measures should be implemented to ensure expenditure commitments are aligned with available revenue.*
3. *The County Treasury should improve the Vote book and budgetary control to ensure expenditure is within the approved budget.*
4. *The county leadership should address the situation of pending bills to ensure that genuine bills are paid promptly in the coming financial year. Further, compliance with the payment plan should be enforced.*
5. *The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
6. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
7. *The County should prioritize expenditures on development activities to ensure they are within the legal limit of 30 per cent of total expenditure.*

The Facility Improvement Fund (FIF) generated Kshs.382,53 million, 160.2 per cent of the revenue target. This is attributed to the receipt of NHIF refunds, which had not been budgeted as a revenue source. Figure 112 shows the trend in own-source revenue collection from the FY 2017/18 to the FY 2023/24.

Figure 112: Trend in Own-Source Revenue Collection from the FY 2017/18 to the FY 2023/24

In the FY 2023/24, the County generated a total of Kshs.1.11 billion from its sources of revenue, inclusive of FIF and AIA. This amount represented an increase of 41.1 per cent compared to Kshs.658.16 million realized in FY 2022/23 and was 100.2 per cent of the annual target and 16.2 per cent of the equitable revenue share disbursed during the period.

The increase in revenue can be attributed to the automation of revenue collection through the partnership between the County Government of Murang'a and the Cooperative Bank of Kenya for the installation of a Revenue Management System. The increase is also attributable to the revenue enforcement measures taken by the County Government of Murang'a.

Figure 113 shows the revenue streams that contributed the highest OSR receipts.

Analysis of expenditure by departments shows that the Department of Finance and Economic Planning recorded the highest absorption rate of development budget at 100.0 per cent, followed by the Department of Youth, Culture, Gender, Social Services & Special Programs at 90.5 per cent. The Department of Health and Sanitation had the highest percentage of recurrent expenditure to budget at 97.1 per cent. In contrast, the Department of Lands, Housing & Physical Planning had the lowest at 53.4 per cent.

Further analysis shows expenditures to exchequer issues is attributable cases where transactions appear as having been paid at IFMIS but in practice, they are awaiting funding at the CBK Internet Banking (IB) level resulting in the above 100% absorption rates. The County Treasury should reconcile the IFMIS reports and the financial statements to enhance the credibility of the budget implementation reports.

3.29.13 Accounts Operated Commercial Banks

The County government operated a total of 23 accounts with commercial banks comprising 17 accounts spent by the County Executive and 6 accounts by the County Assembly. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.29.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget affected the timely preparation of the budget implementation report. The report was received on 26/07/2024.

2. High level of pending bills which amounted to Kshs.1.38 billion as of 30 June 2024. Further, there was non-adherence to the pending bills payment plan by the County Treasury.
3. High wage bills, which accounted for 47.9 per cent of the County's total revenue in FY 2023/24 and was above the ceiling provided in law.
4. Use of manual payroll. Personnel emoluments amounting to Kshs.408.71 million were processed through the manual payroll, accounting for 9.2 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
5. The county government uses commercial bank accounts for operations contrary to Regulations 82(1) (b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The commercial bank accounts are for all County Established Funds, Own Source Revenue Accounts, Petty Cash & Standing Imprests Accounts, FIF Revenue Collection Accounts and NARIGP & NAVCDP Accounts.
6. Law expediture on development programmes which accounted for 23.5 per cent of total expenditure.

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with the timelines prescribed in Section 166 of the PFM Act, 2012.*
2. *County leadership should address the situation of pending bills to ensure that genuine bills are paid promptly in the next financial year. Further, compliance with the payment plan should be enforced.*
3. *The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
4. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
5. *The County Government should ensure that bank accounts are opened and operated at the Central Bank of Kenya as the law requires. However, imprest bank accounts for petty cash and revenue collection accounts are exempted.*
6. *The county should prioritise on development programmes to ensure adherence with the limit of 30 per cent provided in law.*

Facility Improvement Fund (FIF) Hospitals and City Mortuary's actual receipts as a percentage of annual allocation were 397.1 per cent. This is attributed to the health facilities surrendering revenues that they collected, which had not been budgeted for.

The County does not have governing legislation on operating ordinary A-I-A and FIF.

Figure 116 shows the trend in own-source revenue collection from the FY 2017/18 to the FY 2023/24.

Figure 116: Trend in Own-Source Revenue Collection from the FY 2017/18 to the FY 2023/24

Source: Nairobi City County Treasury

The County did not provide information on receipts of FIF from the previous financial years.

In the FY 2023/24, the County generated a total of Kshs.12.81 billion from its sources of revenue, inclusive of FIF and AIA. This amount represented an increase of 22.3 per cent compared to Kshs.10.48 billion realized in a similar period in FY 2022/23. It was 64 per cent of the annual target and 69.4 per cent of the equitable revenue share disbursed during the period. The OSR includes revenue arrears and penalties charged on fees and levies from previous financial years of Kshs.406.93 million. The increase in OSR can be attributed to introducing the Rapid Results Initiative (RRI) in 5 sub-counties, targeting the revenue streams and sensitization of the general public.

The revenue streams which contributed the highest OSR receipts are shown in Figure 117.

Figure 117: Top Streams of Own Source Revenue in the FY 2023/24

Source: Nairobi City County Treasury

The highest revenue stream, Kshs.3.48 billion, was from Rates, which contributed 28 percent of the total OSR receipts during the reporting period.

3.30.3 Exchequer Issues

The Controller of Budget approved withdrawals of Kshs.31.01 billion from the CRF account during the reporting period, comprising Kshs.2.72 billion (8.81 per cent) for development programmes and Kshs.28.29 billion (91.2 per cent) for recurrent programmes. Analysis of the recurrent exchequers released in FY 2023/24 indicates that Kshs.18.37 billion was released towards Employee Compensation and Kshs.9.93 billion for Operations and Maintenance expenditure.

The available cash balance in the County Revenue Fund Account at the end of FY 2023/24 was Kshs.294.86 million.

3.30.4 County Expenditure Review

The County spent Kshs.31.79 billion on development and recurrent programmes in the reporting period. This expenditure represented 102.5 per cent of the total funds released by the CoB and comprised Kshs.3.27 billion and Kshs.28.52 billion on development and recurrent programmes, respectively. Expenditure on development programmes represented an absorption rate of 38.7 per cent, while recurrent expenditures represented 84.3 per cent of the annual recurrent expenditure budget.

3.30.5 Settlement of Pending Bills

At the beginning of FY 2023/24, the County Executive reported a stock of pending bills amounting to Kshs.107.33 billion. The County did not provide a breakdown of the pending bills into recurrent and development expenditures. The County also did not provide data on the amount of pending bills that had been settled during the reporting period. The County declared outstanding pending bills amounting to Kshs.118.32 billion as of the end of FY 2023/24.

The County Assembly reported outstanding pending bills of Kshs.124.53 million as of 30th June 2024.

3.30.6 Expenditure by Economic Classification

Analysis of expenditure by economic classification indicates that the County Executive spent Kshs.17.42 billion on employee compensation, Kshs.9.24 billion on operations and maintenance, and Kshs.3.18 billion on development activities. Similarly, the County Assembly spent Kshs.850.71 million on employee compensation, Kshs.1.01 billion on operations and maintenance, and Kshs.86.17 million on development activities, as shown in Table 3.204.

3.30.7 Expenditure on Employees' Compensation

In the FY 2023/24, expenditure on employee compensation was Kshs.18.27 billion, or 55.4 per cent of the available revenue, which amounted to Kshs.32.96 billion. This expenditure represented an increase from Kshs.12.19 billion reported in a similar period in FY 2022/23. The wage bill included Kshs.6.97 billion paid to health sector employees, translating to 38.1 per cent of the total wage bill. The 49.9 per cent increment in employee compensation is attributed to pension arrears payment of Kshs.1.69 billion, existing staff promotions and recruitment of more staff (medical personnel, the Green Army and enforcement staff).

Further analysis indicates that PE costs amounting to Kshs.15.91 billion were processed through the Integrated Personnel and Payroll Database (IPPD) system, while Kshs.2.45 billion was processed through manual payrolls. The manual payrolls accounted for 13.3 per cent of the total PE cost.

The County Assembly spent Kshs.72.09 million on committee sitting allowances for the 124 MCAs and the Speaker against the annual budget allocation of Kshs.59.93 million. The average monthly sitting allowance was Kshs.39,955 per MCA. The County Assembly has established 26 Committees.

3.30.8 County Emergency Fund and County-Established Funds

Section 110 of the PFM Act 2012 establishes the Emergency Fund, while Section 116 allows County governments to establish other public funds with approval from the County Executive Committee and the County Assembly.

The County allocated Kshs.440 million to the Emergency Fund, constituting 1.0 per cent of the County's overall budget as a vote. The Emergency Fund does not align with Section 110 of the PFM Act, 2012. The County further allocated Kshs.100 million to county-established funds in FY 2023/24, constituting 0.2 per cent of the County's overall budget.

Table 3.205 summarizes each established Fund's budget allocation and performance during the reporting period.

During the reporting period, the CoB did not receive quarterly financial returns from the Fund Administrators of all the funds, as indicated in Table 3.202, contrary to the requirement of Section 168 of the PFM Act, 2012. Therefore, the CoB could not establish if the administration costs of the Funds were within the 3 per cent limit of the Fund budget as set in Regulation 197(1)(d) of the Public Finance Management (County Governments) Regulations, 2015.

The County government uses commercial bank accounts to operate the above-established public funds contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which require that County government bank accounts must be opened and maintained at the Central Bank of Kenya.

3.30.9 Expenditure on Operations and Maintenance

Figure 118 summarizes the Operations and Maintenance expenditure by major categories.

Analysis of expenditure by departments shows that the Department of Business & Hustler Opportunities recorded the highest absorption rate of development budget at 76.7 per cent, followed by the Department of Water, Energy, Environment, Forestry and Natural Resources at 71 per cent. The Liquor Licensing Board had the highest percentage of recurrent expenditure to budget at 99.7 per cent, while the Nairobi Revenue Authority had the lowest at 30.9 per cent.

The recurrent expenditure is above recurrent exchequer issues in the Department of Finance and Economic

Planning, while the development expenditure is above development exchequer issues in the Department of Mobility and Works. This is attributed to the County spending part of the monies in Special Purpose Accounts at the Central Bank of Kenya and Commercial Banks. The cash was not banked into the CRF at the end of the financial year.

Sub-programmes with the highest levels of implementation based on absorption rates under recurrent expenditure were Administration, Planning & Support Services in the County Public Service Board at 100 per cent, Liquor Licensing & Regulation in the Liquor Licensing Board at 99.7 per cent and Business & Hustler Opportunities at 99.4 per cent of budget allocation. The County Referral Hospital had the highest levels of implementation based on absorption rates under development expenditure at 99.6 per cent, followed by City Culture Arts & Tourism at 99.5 per cent.

3.30.13 Accounts Operated Commercial Banks

The County government operated 23 accounts with commercial banks (5 for the County Assembly). This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.30.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. The County Treasury's late submission of financial reports to the Controller of Budget affected the timely preparation of the budget implementation report, which was received on 6th August 2024.
2. The under performance of own-source revenue at Kshs.12.81 billion, against an annual target of Kshs.19.99 billion, represents 64.1 per cent of the annual target.

3. Failure to refund unspent funds from FY 2022/23 into the CRF account led to actual expenditure being above the approved exchequer issues in several departments, as shown in Table 3.208.
4. Failure by fund administrators to submit quarterly financial and non-financial reports to the COB within the timelines provided by law is against the requirement of Section 168 of the PFM Act, 2012. The Emergency Fund and County Assembly Car Loan and Mortgage Fund reports were not submitted to the Controller of Budget.
5. As of 30 June 2024, the County Executive's pending bills amounted to Kshs.118.32 billion and the Assembly's to Kshs.124,53. Further, the County Treasury did not adhere to the payment plan for the pending bills.
6. High wage bills accounted for 55.4 per cent of the County's total revenue in FY 2023/24, which is above the ceiling provided by law.
7. Use of manual payroll. Personnel emoluments amounting to Kshs.2.45 billion were processed through manual payroll, accounting for 13.4 per cent of the total payroll cost. Manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
8. The county government uses commercial bank accounts for operations contrary to Regulations 82(1) (b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. Commercial bank accounts are for salaries accounts, emergency fund accounts, County established funds, special purpose accounts, revenue collection accounts and imprest accounts.
9. Excessive foreign travel by County Executive and County Assembly amounting to Kshs.328.33 million
10. Low development expenditure of 10.3 per cent of total expenditure.

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with the timelines prescribed in Section 166 of the PFM Act, 2012.*
2. *The County should address its own-source revenue performance to ensure the approved budget is fully financed. Appropriate austerity measures should be implemented to ensure expenditure commitments are aligned with available revenue.*
3. *The County Treasury should ensure unspent funds from the previous financial year are deposited to the CRF Account in line with Section 136 of the PFM Act 2012.*
4. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
5. *The county leadership should address the situation of pending bills to ensure that genuine bills are paid promptly in the next financial year. Further, compliance with the payment plan should be enforced.*
6. *The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
7. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
8. *The County Government should ensure that bank accounts are opened and operated at the Central Bank of Kenya as the law requires. However, imprest bank accounts for petty cash and revenue collection accounts are exempted.*
9. *The County should curb excessive foreign travel and instead train locally, if need be, to conserve resources.*
10. *The County should prioritize spending on development projects.*

A number of sub-programmes had expenditures above approved budget allocations which included; - SP 2.5 Empowering Youth, Women and PWDs participation in Cooperatives at 147.3 per cent, SP 2.1 Primary Healthcare at 108.4 per cent, SP 2.2 Bursaries at 100.7 per cent, and SP 2.4 Strengthening cooperatives at 105.9 per cent of annual allocation. The County Treasury should investigate the cause of the misappropriation of funds and take corrective action.

3.31.13 Accounts Operated Commercial Banks

The County government operated 12 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.31.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget affected the timely preparation of the budget implementation report. The report was received on 9th August 2024.
2. Low absorption of development funds as indicated by the expenditure of Kshs.4.45 billion from the annual development budget allocation of Kshs.9.68 billion. The development expenditure represented 46.0 per cent of the annual development budget.
3. The under performance of own-source revenue at Kshs.3.32 billion against an annual target of Kshs.4.1 billion, representing 81.0 per cent of the annual target.
4. High level of pending bills, which amounted to Kshs.1.10 billion as of 30th June 2024.
5. Use of manual payroll. Personnel emoluments amounting to Kshs.582.61 million were processed through the manual payroll, accounting for 8.6 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
6. The county government uses commercial bank accounts for operations contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The commercial bank accounts are for the operations of the funds in the County.
7. High expenditure on domestic travel at Kshs.544.13 million.

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with the timelines prescribed in Section 166 of the PFM Act, 2012.*

2. *The County should identify and address issues causing delays in implementing development projects.*
3. *The County should address its own-source revenue performance to ensure the approved budget is fully financed. Appropriate austerity measures should be implemented to ensure expenditure commitments are aligned with available revenue.*
4. *The county leadership should address the situation of pending bills to ensure that genuine bills are paid promptly in the following financial year. Further, compliance with the payment plan should be enforced.*
5. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
6. *The County Government should ensure that bank accounts are opened and operated at the Central Bank of Kenya as the law requires. However, imprest bank accounts for petty cash and revenue collection accounts are exempted.*
7. *The county should reduce expenditure on domestic travel by holding activities within the county headquarters*

Sub-programmes with the highest implementation rates based on absorption were Administrative Support Services in the Department of the County Attorney at 99.5 per cent, Administrative Support Services in the Department of County Public Service at 98.3 per cent, Sports Activities and Programs in the Department -Sports, Youth Affairs, Gender and Social Welfare Arts at 98.9 per cent and Health Service Delivery Administration Services in the Department of Health and Sanitation at 97.8 per cent of budget allocation.

3.32.13 Accounts Operated Commercial Banks

The County government operated 7 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.32.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget affected the timely preparation of the budget implementation report. The report was received on 1st August 2024
2. Failure by the Fund Administrators to submit quarterly financial and non-financial reports to the COB within the timelines provided by law, which is against the requirement of Section 168 of the PFM Act, 2012. The Emergency Fund, County Assembly Car Loan & Mortgage Fund and County Executive Car Loan & Mortgage Fund reports were not submitted to the Controller of Budget.
3. The County Treasury did not provide an updated list of pending bills as of 30th June 2024.
4. Use of manual payroll. Personnel emoluments amounting to Kshs.270.94 million were processed through the manual payroll, accounting for 6.1 per cent of the total payroll cost. The annual payroll is prone to abuse and may lead to the loss of public funds if proper controls are lacking.
5. Law expenditure on development programmes which accounted for 21.5 percent of total expenditure.

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with the timelines prescribed in Section 166 of the PFM Act, 2012.*
2. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
3. *The County should provide a report on the status of pending bills to the County Assembly for oversight.*
4. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for its staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
5. *The County should prioritise expenditure on development programmes to adhere to the legal provision of 30 per cent.*

In FY 2023/24, the County generated a total of Kshs.4.78 billion from its revenue sources, inclusive of FIF and AIA. This amount represented an increase of 56.2 per cent compared to Kshs.3.06 billion realized in a similar period in FY 2022/23. It was 95.2 per cent of the annual target and 56.5 per cent of the equitable revenue share disbursed during the period.

This increase of OSR by 56.2 per cent can be attributed to the following: -

The county was among the first few counties assessed using the Tax Administration Diagnostic Assessment Tool (TADAT) in April 2022. Upon training, assessment and the release of the report, a secretariat was established to develop a Revenue Enhancement Action Plan (REAP) focusing on the priority areas that needed improvement (based on the TADAT performance assessment report). The REAP covered the period between 2022- 2027. Among the revenue strategies implemented during the period were;

- Development of finance policies and regulations in line with the Narok County Government Finance Act, 2022/23.*
- Automation of other revenue outside Maasai Mara National Game Reserve.*
- Staff re-alignment & capacity building.*
- Employment of new staff.*
- Revenue targets cascaded from the Directorate to Sub County Revenue Officers level to revenue collection clerks for individual set targets.*

The revenue streams which contributed the highest OSR receipts are shown in Figure 128.

Figure 128: Top Streams of Own Source Revenue in the FY 2023/24.

Source: Narok County Treasury

The highest revenue stream, Kshs.4.32 billion, was from Park Fees, which contributed 91.3 per cent of the total OSR receipts during the reporting period.

Analysis of the recurrent exchequers released in FY 2023/24 indicates that Kshs.4.37 billion was released towards Employee Compensation and Kshs.4.56 billion for Operations and Maintenance expenditure.

The available cash balance in the County Revenue Fund Account at the end of FY 2023/24 was Kshs.13.02 million.

The sub-programmes with the highest implementation levels based on absorption rates were Referral Services in the Department of Health & Sanitation at 99.5 per cent, Accounting services in the Department of Finance at 99.1 per cent, Livestock Information Management in the Department of Agriculture, Livestock & Fisheries at 98.4 per cent, and Metropolitan Planning & Infrastructure Development at 97.9 per cent of budget allocation.

3.33.13 Accounts Operated Commercial Banks

The County government operated a total of 27 accounts with commercial banks. This is contrary with Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015 which required that County government bank accounts must be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash.

3.33.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget affected the timely preparation of the budget implementation report. The report was received on 16th August, 2024.
2. Failure by fund administrators to submit quarterly financial and non-financial reports to the COB within the timelines provided by law is against the requirement of Section 168 of the PFM Act, 2012. The reports for the five Funds were not submitted to the Controller of Budget.
3. The high pending bills amounted to Kshs.764.64 million as of 30th June 2024. Further, there was non-adherence to the pending bills payment plan by the County Treasury.

4. Use of manual payroll. Personnel emoluments amounting to Kshs.507.50 million were processed through the manual payroll, accounting for 11.6 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
5. The county government uses commercial bank accounts for operations contrary to Regulations 82(1) (b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The commercial bank accounts are for petty cash and revenue collection accounts.
6. High expenditure on domestic travel at Kshs.314.57 million.

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with the timelines prescribed in Section 166 of the PFM Act, 2012.*
2. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
3. *The county leadership should address the situation of pending bills to ensure that genuine bills are paid promptly in the remaining financial year. Further, compliance with the payment plan should be enforced.*
4. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
5. *The County Government should ensure that bank accounts are opened and operated at the Central Bank of Kenya as the law requires. However, imprest bank accounts for petty cash and revenue collection accounts are exempted.*
6. *The county should reduce expenditure on domestic travel by holding activities within the county.*

3.34.7 Expenditure on Employees' Compensation

In the FY 2023/24, expenditure on employee compensation was Kshs.3.42 billion, or 55.2 per cent of the available revenue, which amounted to Kshs.6.20 billion. The wage bill included Kshs.680.46 million paid to health sector employees, translating to 19.9 per cent of the total wage bill. The increase in employee compensation was due to newly recruited staff in various departments in the payroll during the months of January and February 2024, the implementation of the Housing levy and the implementation of the SRC circular, which increased civil servants' salaries in August 2023.

Figure 133 shows the trend of personnel expenditures as a percentage of total revenue from FY 2017/18 to FY 2023/24.

Analysis of expenditure by departments shows that the Nyamira Municipality recorded the highest absorption rate of the development budget at 100.2 per cent, followed by the Department of Public Service Management at 96.2 per cent. The Department of Education & Vocational Training had the highest percentage of recurrent expenditure to budget at 112.0 per cent. In comparison, the Department of the County Attorney had the lowest at 71.0 per cent. The Nyamira Municipality expenditure of above 100 per cent of the approved budget allocation should be investigated further by the County Treasury and a report filed with the oversight institution.

Further, a number of departments reported expenditures above approved exchequer issues which points to diversion of funds and lack of a financial control system at the County Treasury.

Sub-programmes with the highest levels of implementation based on absorption rates were: Accounting & financial services in the Department of Finance and Accounting Services at 140.1 per cent, Crop development services in the Department of Crop and Agribusiness Management at 116.0 per cent, Infrastructure development at Nyamira Municipality at 100.2 per cent, and Field co-ordination & administration in the Department of Public service management at 96.2 per cent of budget allocation. Absorption rates above 100 per cent should be investigated by the County Treasury and appropriately addressed.

3.34.13 Accounts Operated Commercial Banks

The County government operated a total of 15 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.34.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget affected the timely preparation of the budget implementation report. The report was received on 26th July 2024. Further, the report was incomplete as it did not include details of foreign travel.
2. The under performance of own-source revenue at Kshs.369.80 million against an annual target of Kshs.687.00 million, representing 53.8 per cent of the annual target.
3. Failure to refund unspent funds from FY 2022/23 into the CRF account, which led to actual expenditure being above the approved exchequer issues in several departments as shown in Table 3.236.
4. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB within the timelines provided in law, which is against the requirement of Section 168 of the PFM Act, 2012. The reports for the Health Facility Improvement Fund, Emergency Fund, Education Support Fund, Loans to Traders (Revolving Fund), Co-operative Enterprise Development Fund, and County Assembly Car and Mortgage Fund were not submitted to the Controller of Budget.
5. High wage bills which accounted for 55.2 per cent of the County total revenue in FY 2023/24 which is above the ceiling provided in law.
6. Expenditures above approved budget allocations for programmes and sub-programmes as shown in Table 3.233 which points to lack of a control mechanism in the use of public resources.
7. Law expenditure on development programmes which accounted for 21.4 per cent of total expenditure.

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with the timelines prescribed in Section 166 of the PFM Act, 2012.*
2. *The County should address its own-source revenue performance to ensure the approved budget is fully financed in the coming financial year. Appropriate austerity measures should be implemented to ensure expenditure commitments are aligned with available revenue.*
3. *The County Treasury should ensure unspent funds from the previous financial year are deposited to the CRF Account in line with Section 136 of the PFM Act 2012.*
4. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
5. *The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
6. *The County Treasury should investigate the departments where expenditures on programmes were above 100 per cent of budget allocations and take necessary action.*
7. *The county should prioritise expenditure on development programmes to meet the threshold in law.*

The sub-programmes with the highest implementation levels based on absorption rates were Alternative energy technologies in the Department of Public Works & Energy at 100 per cent, Governor's press in the Office of the Governor at 99.9 per cent, and Supply chain management services in the Department of Finance & Economic Planning at 99.9 per cent of budget allocation.

3.35.13 Accounts Operated Commercial Banks

The County government operated 88 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.35.14 Key Observations and Recommendations

While overseeing and reporting on the county budget implementation, the COB identified the following challenges that hampered effective budget implementation.

1. The under performance of own-source revenue at Kshs.515.74 million against an annual target of Kshs.1.23 billion, representing 42.1 per cent of the annual target.
2. Use of manual payroll. Personnel emoluments amounting to Kshs.132.29 million were processed through the manual payroll, accounting for 4.8 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
3. Low expenditure on development expenditure, which was 21.9 per cent of total expenditure in FY 2023/24. This is below the 30 per cent threshold provided in law.
4. High expenditure on wage bills accounted for 40.6 per cent of the available revenue in FY 2023/24, above the legal ceiling of 35 per cent.
5. High expenditure on domestic travel at Kshs.341.36 million.

The County should implement the following recommendations to improve budget execution:

1. *The County should address its own-source revenue performance to ensure the approved budget is fully financed. Appropriate austerity measures should be implemented to ensure expenditure commitments are aligned with available revenue.*
2. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
3. *The County should prioritize expenditure on development programmes to ensure that its expenditure meets the provisions of the law.*
4. *The County government should develop and implement strategies to ensure that expenditures on the wage bill are within the legal ceiling.*
5. *The county should reduce travelling expenditure by holding activities within the county headquarters.*

Sub-programmes with the highest levels of implementation based on absorption rates were: Administration, Planning and General Services and Health Services, both in the Department of Health Services and Public Health at 100 per cent, Development of Agricultural Land for crop production and Farm Development both in the Department of Agriculture, Livestock and Aquaculture Development at 100 per cent, Administrative

Support Services in the Department of Education and Training at 99 per cent, and Administration and personnel services in the Department of County Public Service Board at 98 per cent of budget allocation.

3.36.13 Accounts Operated Commercial Banks

The County government operated a total of 17 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.36.14 Key Observations and Recommendations

While overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation.

1. Late submission of financial reports by the County Treasury to the Controller of Budget affected the timely preparation of the budget implementation report. The report was received on 1st August 2024.
2. A high wage bill accounted for 47.4 per cent of the County's total revenue in FY 2023/24, which is above the ceiling provided in law.
3. Use of manual payroll. Personnel emoluments amounting to Kshs.413.22 million were processed through the manual payroll, accounting for 9.7 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
4. The county government uses commercial bank accounts for operations contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The commercial bank accounts are for Established County Funds and Revenue Accounts.
5. Poor management of vote books by the County Treasury and weak budgeting practice, as shown in Table 3.246, where the County incurred expenditure over approved exchequer issues and diversion of funds.
6. Law expenditure on development programmes which accounted for 25.4 per cent of total expenditure.

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with the timelines prescribed in Section 166*
2. *The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
3. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
4. *The County Government should ensure that bank accounts are opened and operated at the Central Bank of Kenya as the law requires. However, imprest bank accounts for petty cash and revenue collection accounts are exempted.*
5. *The County Treasury should observe proper management of the vote book and observe a strong budgeting practice of incurring expenditure over the approved exchequer issues and diversion of funds.*
6. *The County should prioritise expenditure on development programme to ensure it is inline with threshold of the law.*

3.37.1 Overview of FY 2023/24 Budget

The County's approved second supplementary budget for FY 2023/24 was Kshs.7.52 billion, comprising Kshs.2.48 billion (32.9 per cent) and Kshs.5.05 billion (67.1 per cent) allocation for development and recurrent programmes, respectively. The approved budget estimates represented an increase of 7.8 per cent compared to the previous financial year when it was Kshs. 6.98 billion and comprised of Kshs.2.18 billion towards development expenditure and Kshs.4.79 billion for recurrent expenditure.

The own-source revenue includes Kshs.17 million (5.6 per cent) as Facility Improvement Fund (revenue from health facilities), and Kshs.239.03 million (93.4 per cent) as ordinary own-source revenue. A breakdown of the additional allocations/conditional grants is provided in Table 3.248.

In the FY 2023/24, the County generated a total of Kshs.266.58 million from its sources of revenue and AIA. This amount represented an increase of 17.8 per cent compared to Kshs.226.23 million realized in FY 2022/23 and was 4.1 per cent of the annual target and 5.2 per cent of the equitable revenue share disbursed during the period. The increase in OSR can be attributed to the adoption of a revenue management system in revenue collection. The revenue streams which contributed the highest OSR receipts are shown in Figure 144.

Figure 144: Top Streams of Own Source Revenue in the FY 2023/24

The highest revenue stream, Kshs.208.54 million, was from Game Park and Nature fees, which contributed 78 per cent of the total OSR receipts during the reporting period.

3.37.3 Exchequer Issues

The Controller of Budget approved withdrawals of Kshs.6.19 billion from the CRF account during the reporting period, which comprised Kshs.1.51 billion (24.3 per cent) for development programmes and Kshs.4.69 billion (75.7 per cent) for recurrent programmes. Analysis of the recurrent exchequers released in the FY 2023/24 indicates that Kshs.2.62 billion was released towards Employee Compensation and Kshs.2.06 billion for Operations and Maintenance expenditure.

The available cash balance in the County Revenue Fund Account at the end of FY 2023/24 was Kshs.16.26 million.

3.37.4 County Expenditure Review

The County spent Kshs.6.19 billion on development and recurrent programmes in the reporting period. The expenditure represented 100 per cent of the total funds released by the CoB and comprised of Kshs.1.51 billion and Kshs.4.69 billion on development and recurrent programmes, respectively. Expenditure on development programmes represented an absorption rate of 59.9 per cent, while recurrent expenditure represented 92.8 per cent of the annual recurrent expenditure budget.

3.37.5 Settlement of Pending Bills

At the beginning of FY 2023/24, the County reported a stock of pending bills amounting to Kshs.517.43 million, comprising Kshs.93.89 million for recurrent expenditure and Kshs.423.53 million for development activities. In the FY 2023/24, the County settled pending bills amounting to Kshs.306.45 million, which consisted of Kshs.8.99 million for recurrent expenditure and Kshs.297.46 million for development programmes. Therefore, as of the end of FY 2023/24, the outstanding amount was Kshs.210.98 million. This does not include pending bills incurred in FY 2023/24.

The County Assembly did not report any outstanding pending bills as of 30 June 2024.

3.37.6 Expenditure by Economic Classification

Analysis of expenditure by economic classification indicates that the County Executive spent Kshs.2.35 billion on employee compensation, Kshs.1.74 billion on operations and maintenance, and Kshs.1.42 billion on

development activities. Similarly, the County Assembly spent Kshs.267.27 million on employee compensation, Kshs.325.64 million on operations and maintenance, and Kshs.88.97 million on development activities, as shown in Table 3.252.

3.37.7 Expenditure on Employees' Compensation

In the FY 2023/24, expenditure on employee compensation was Kshs.2.62 billion, or 42.2 per cent of the available revenue, which amounted to Kshs.6.63 billion. This expenditure represented an increase from Kshs.2.20 billion reported in FY 2022/23. The wage bill included Kshs.795.29 million paid to health sector employees, translating to 30.3 per cent of the total wage bill.

Further analysis indicates that PE costs amounting to Kshs.2.30 billion were processed through the Integrated Personnel and Payroll Database (IPPD) system, while Kshs.319.65 million was processed through manual payrolls. The manual payrolls accounted for 12.2 per cent of the total PE cost.

The County Assembly spent Kshs.16.45 million on committee sitting allowances for the 25 MCAs against the annual budget allocation of Kshs.31.2 million. The average monthly sitting allowance was Kshs.54,846 per MCA. The County Assembly has established 15 Committees.

3.37.8 County Emergency Fund and County-Established Funds

Section 116 of the PFM Act 2012 allows County governments to establish other public funds with approval from the County Executive Committee and the County Assembly. The County allocated Kshs.361 million to county-established funds in FY 2023/24, constituting 4.7 per cent of the County's overall budget. Further, the County allocated Kshs.30 million to the Emergency Fund in line with Section 110 of the PFM Act, 2012. Table 3.253 summarises each established Fund's budget allocation and performance during the reporting period.

During the reporting period, the CoB did not receive quarterly financial returns from all the Fund Administrators, as indicated in Table 3.250, contrary to the requirement of Section 168 of the PFM Act, 2012. The administration costs of the funds could not be ascertained due to the non-submission of quarterly financial returns.

The County government uses commercial bank accounts to operate the above-established public funds contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which require that County government bank accounts must be opened and maintained at the Central Bank of Kenya.

3.37.9 Expenditure on Operations and Maintenance

Figure 145 summarises the Operations and Maintenance expenditure by major categories.

Sub-programmes with the highest levels of implementation based on absorption rates were: General Administration Planning and Support Services in the Department of Trade and Industrialization at 112.6 per cent, Legislative and Oversight in the County Assembly at 100 per cent, Pollution Control & monitoring in the Department of Water and Environment at 100 per cent, and Crop Production and Management in the Department of Agriculture at 100 per cent of budget allocation.

3.37.13 Accounts Operated Commercial Banks

The County government operated a total of 24 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.37.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget affected the timely preparation of the budget implementation report. The report was received on 1st August 2024.
2. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB within the timelines provided in laws, which is against the requirement of Section 168 of the PFM Act,

2012. The reports for the Conservancies Fund – Department of Tourism, Trade Enterprise Development and Cooperatives, Executive Car Loan and Mortgage, Bursaries Fund, Youth and Women Fund, People Living with Disability Fund, Emergency Fund and County Assembly Car Loan and Mortgage Fund were not submitted to the Controller of Budget.

3. High level of pending bills which amounted to Kshs. 210.98 million as of 30 June 2024. Further, there was non-adherence to the payment plan for the pending bills by the County Treasury.
4. High wage bills accounted for 42.2 per cent of the County's total revenue in FY 2023/24, which is above the ceiling provided in law.
5. Use of manual payroll. Personnel emoluments amounting to Kshs.319.65 million were processed through the manual payroll, accounting for 12.2 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
6. The county government uses commercial bank accounts for operations contrary to Regulations 82(1) (b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya.
7. Law expenditure on development expenditure which was 24.6 per cent of total expenditure.

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with the timelines prescribed in Section 166 of the PFM Act, 2012.*
2. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
3. *The county leadership should address the situation of pending bills to ensure that genuine bills are paid promptly in the remaining financial year. Further, compliance with the payment plan should be enforced.*
4. *The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
5. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
6. *The County Government should ensure that bank accounts are opened and operated at the Central Bank of Kenya as the law requires. However, imprest bank accounts for petty cash and revenue collection accounts are exempted.*
7. *The County should prioritise expenditure on development to meet the legal provision of 30 per cent.*

Source: Siaya County Treasury

An analysis of expenditure by departments shows that the Department of Tourism, Culture, Sports and Arts and the Department of Governorship, administration & ICT recorded the highest absorption rate of development budget at 83.4 per cent. The County Assembly had the highest percentage of recurrent expenditure to budget at 98.1 per cent, followed by the Department of Education, Youth Affairs, gender and Social Services at 95.5 per cent, while the Department of Tourism, culture, sports and Arts had the lowest at 72.0 per cent.

The Department of Lands, Physical Planning, and Urban Development had an over 100 per cent development absorption rate because of budget cuts during the supplementary budget. This is irregular, and the County Treasury should take corrective action.

The sub-programmes with the highest levels of implementation based on absorption rates were General Administration, Planning and Support Services in the Department of Lands, Physical Planning, Housing and Urban Development at 233.1 per cent, Housing at 205.1 per cent, Youth Polytechnics & Youth Training in the Department of Education, Youth Affairs, Gender and Social Services at 127.6 per cent of budget allocation. Absorption rates above 100 per cent are irregular and should be investigated and corrective actions taken by the County Treasury.

3.38.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. The county Treasury's late submission of financial reports to the Controller of Budget affected the timely preparation of the budget implementation report, which was received on 22 July 2024.
2. Own-source revenue under performed at Kshs.610.74 million, representing 80.4 per cent of the annual target, against an annual target of Kshs.760.00 million
3. There was a high level of pending bills, which amounted to Kshs.303.91 million as of 30 June 2024. Further, the County Treasury did not adhere to the pending bills payment plan.
4. The high wage bill accounted for 37.2 per cent of the County's total revenue in FY 2023/24, which is above the ceiling provided in law.
5. Use of manual payroll. Personnel emoluments amounting to Kshs.1.11 billion were processed through the manual payroll, accounting for 34.8 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
6. The County government uses commercial bank accounts to operate the established county funds contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya.

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with the timelines prescribed in Section 166 of the PFM Act, 2012.*
2. *The County should address its own-source revenue performance to ensure the approved budget is fully financed. Appropriate austerity measures should be implemented to ensure expenditure commitments are aligned with available revenue.*
3. *The County leadership should address the situation of pending bills to ensure that genuine bills are paid promptly in the next financial year. Further, compliance with the payment plan should be enforced.*
4. *The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
5. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*

6. *The County Government should ensure that bank accounts are opened and operated at the Central Bank of Kenya as the law requires. However, imprest bank accounts for petty cash and revenue collection accounts are exempted.*

3.39. County Government of Taita Taveta

3.39.1 Overview of FY 2023/24 Budget

Sub-programmes with the highest levels of implementation based on absorption rates were: Treasury Development programme in the Department of Finance and Economic Planning at 100 per cent, General administration, Planning, Internal audit & Support services in Department of Finance and Economic Planning at 100 per cent, General administration & Support services in the Department of Health Services at 100 per cent and General Administration and Support Services in the County assembly at 100 per cent of budget allocation.

3.39.13 Accounts Operated Commercial Banks

The County government operated a total of 37 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.39.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. Under performance of own-source revenue at Kshs.461.18 million against an annual target of Kshs.628.66 million, representing 73.3 per cent of the annual target.
2. High level of pending bills which amounted to Kshs.1.63 billion as of 30th June 2024. This includes bills accrued in FY 2023/24.
3. High wage bills which accounted for 53 per cent of the County total revenue in FY 2023/24 which is above the ceiling provided in law.
4. Law expenditure on development programmes which accounted for 18.6 per cent of total expenditure.

The County should implement the following recommendations to improve budget execution:

1. *The County should address its own-source revenue performance to ensure the approved budget is fully financed. The County Treasury should have in place appropriate austerity measures implemented during the financial year to ensure expenditure commitments are aligned with available revenue.*
2. *The county leadership should address the situation of pending bills to ensure that genuine bills are paid promptly in the next financial year.*
3. *The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
4. *The County should prioritise expenditure on development programmes to adhere to the 30 per cent ceiling in law.*

3.40. County Government of Tana River

3.40.1 Overview of FY 2023/24 Budget

The County's approved supplementary budget II for the FY 2023/24 was Kshs.8.87 billion, comprising Kshs.3.55 billion (40.1 per cent) and Kshs.5.31 billion (59.9 per cent) allocation for development and recurrent programmes, respectively. The approved budget estimates represented an increase of 11.1 per cent compared to the previous financial year when the approved budget was Kshs.7.98 billion, comprising Kshs.2.51 billion (31.5 per cent) and Kshs.5.47 billion (68.5 per cent) allocation for development and recurrent programmes.

To finance the budget, the County expected to receive Kshs.6.79 billion (76.6 per cent) as the equitable share of revenue raised nationally, Kshs.3.95 million (0.01 per cent) as Facility Improvement Fund (revenue from health facilities), Kshs.872.98 (9.8 per cent) million as conditional grants, a cash balance of Kshs.1.11 billion (12.5 per cent) from FY 2022/23 and generate Kshs.92.67 million (1 per cent) as ordinary own-source revenue. A breakdown of the conditional grants is provided in Table 3.272.

Based on absorption rates, the sub-programmes with the highest implementation levels were County Leadership in the Department of Office of the Governor at 100 per cent, general administration in the Department of County Public Service Board at 100 per cent, General administration in the Department of Finance at 100 per cent, and disaster risk management in the Department of Special Programmes at 100 per cent of budget allocation.

3.40.13 Accounts Operated Commercial Banks

The County government operated 34 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.40.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. The County Treasury's late submission of financial reports to the Controller of Budget affected the timely preparation of the budget implementation report.
2. Fund administrators' failure to submit quarterly financial and non-financial reports to the COB within the timelines provided by law is against the requirement of Section 168 of the PFM Act, 2012. The reports for the Bursary Fund and Livestock Fund fund administrators were not submitted to the Controller of Budget.
3. There was a high level of pending bills, which amounted to Kshs.2.12 billion as of 30th June 2024.
4. Use of manual payroll. Personnel emoluments amounting to Kshs.15.6 million were processed through manual payroll, accounting for 0.7 per cent of the total payroll cost. Manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
5. High expenditure on domestic travel at Kshs. 462.78 million which may be wasteful expenditure.

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with the timelines prescribed in Section 166 of the PFM Act, 2012.*

2. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
3. *The county leadership should address the situation of pending bills to ensure that genuine bills are paid promptly in the next financial year. Further, compliance with the payment plan should be enforced.*
4. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
5. *The County should minimize expenditure on domestic travel by undertaking activities within the county headquarters.*

An analysis of sub-programmes shows that monitoring and Evaluation Services under the Department of Finance and Economic Planning had an absorption rate of 123 per cent of recurrent budget allocation, which is irregular and should be addressed by the County.

3.41.13 Key Observations and Recommendations

While overseeing and reporting on the implementation of the County budget, the COB identified the following challenges that hampered effective budget implementation.

1. High level of pending bills, which amounted to Kshs.740.96 million as of 30th June 2024. Further, there was non-adherence to the payment plan for the pending bills by the County Treasury.

- High wage bills accounted for 52.3 per cent of the County's total revenue in FY 2023/24, above the legal ceiling of 35 per cent of the County's revenue.
- Low absorption of funds allocated to the development expenditure budget, which translated to 23.1 per cent of total expenditure in the reporting period. This was below the 30 per cent threshold in law. Further, several departments did not report any expenditure on the development budget, as shown in Table 3.281.

The County should implement the following recommendations to improve budget execution:

- The county leadership should address the situation of pending bills to ensure that genuine bills are paid promptly in the remaining financial year. Further, compliance with the payment plan should be enforced.
- The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.
- The County government should prioritize expenditure on development activities to enhance compliance with the law on the 30 per cent threshold.

3.42.13 Accounts Operated Commercial Banks

The County government operated a total of 11 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.42.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget affected the timely preparation of the budget implementation report. The report was received on 5th August 2024
2. The under performance of own-source revenue at Kshs.476.63 million against an annual target of Kshs.643.70 million, representing 75.9 per cent of the annual target.

3. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB within the timelines provided by law, which is against the requirement of Section 168 of the PFM Act, 2012. The reports for the Elimu Bursary Fund, Nawiri Fund, Youth and Women Development Fund, Emergency Fund and Car Loan and Mortgage Scheme Fund were not submitted to the Controller of Budget.
4. There was a high level of pending bills, which amounted to Kshs.2.08 billion as of 30 June 2024. Further, the County Treasury did not adhere to the pending bills payment plan.
5. High wage bills accounted for 36.9 per cent of the County's total revenue in FY 2023/24, which is above the ceiling provided by law.
6. Use of manual payroll. Personnel emoluments amounting to Kshs.152.62 million were processed through manual payroll, accounting for 4.5 per cent of the total payroll cost. Manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
7. High expenditure on domestic travel at Kshs. 226.12 million which should be rationalised to save funds for key activities.

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with the timelines prescribed in Section 166 of the PFM Act, 2012.*
2. *The County should address its own-source revenue performance to ensure the approved budget is fully financed. Appropriate austerity measures should be implemented to ensure expenditure commitments are aligned with available revenue.*
3. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
4. *The county leadership should address the situation of pending bills to ensure that genuine bills are paid promptly in the remaining financial year. Further, compliance with the payment plan should be enforced.*
5. *The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
6. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
7. *The County should minimize expenditure on domestic travel by undertaking activities within the County Headquarters.*

It is worth noting that the County Assembly enacted legislation to govern the operation of ordinary A-I-A and FIF.

Figure 165 shows the trend in own-source revenue collection from the FY 2017/18 to the FY 2023/24.

Figure 165: Trend in Own-Source Revenue Collection from the FY 2017/18 to the FY 2023/24

In FY 2023/24, the County generated a total of Kshs.530.65 million from its revenue sources, inclusive of FIF and AIA. This amount represented an increase of 198.6 per cent compared to Kshs.177.72 million realized in a similar period in FY 2022/23 and was 241.2 per cent of the annual target and 4.4 per cent of the equitable revenue share disbursed during the period.

The increase in OSR can be attributed to Tullow Oil Company's payment of land rent arrears for oil exploration activities.

The revenue streams which contributed the highest OSR receipts are shown in Figure 166.

Figure 166: Top Streams of Own Source Revenue in the FY 2023/24

The highest revenue stream, Kshs.95.37 million, was from Health Fees, which contributed 18 per cent of the total OSR receipts during the reporting period.

3.43.3 Exchequer Issues

During the reporting period, the Controller of Budget approved withdrawals of Kshs.15.68 billion from the CRF account, comprising Kshs.5.53 billion (35.3 per cent) for development programmes and Kshs.10.15 billion (64.7 per cent) for recurrent programmes. Analysis of the recurrent exchequers released in FY 2023/24 indicates that Kshs.5.73 billion was released towards Employee Compensation and Kshs.4.42 billion for Operations and Maintenance expenditure.

The available cash balance in the County Revenue Fund Account at the end of FY 2023/24 was Kshs.91.92 million.

Expenditure on compensation of employees exceed approved budget allocation for the County Executive while the County Assenbky reported expenditure above approved allocation for operations and maintenance. The discrepancy should be investigated and action taken.

3.43.7 Expenditure on Employees' Compensation

In the FY 2023/24, expenditure on employee compensation was Kshs.5.58 billion, or 35.9 per cent of the available revenue, which amounted to Kshs.15.52 billion. This expenditure represented an increase from Kshs.4.43 billion reported in a similar period in FY 2022/23. The increase is attributed to salary review by the Salaries and Remuneration Commission, recruitment and absorption of more Health workers, annual salary increments, and promotion of County officers. The wage bill included Kshs.2.08 billion paid to health sector employees, translating to 37.3 per cent of the total wage bill.

Figure 167 shows the trend of personnel expenditures as a percentage of total revenue from FY 2017/18 to FY 2023/24.

Analysis of expenditure by departments shows that the County Assembly recorded the highest absorption rate of development budget at 96.1 per cent, followed by the Department of Tourism, Culture and Natural Resources at 94.4 per cent. The Departments of Public Services, Decentralized Administration and Disaster Management, Lodwar Municipality Board, Kakuma Municipality and County Assembly had the highest percentage of recurrent expenditure to budget at 100 per cent. In comparison, the Office of the Deputy Governor had the lowest at 95 per cent.

Further analysis shows that expenditures for most departments exceeded exchequer issues. The anomalies can be attributed to the fact that a substantial number of transactions may appear to have been paid at IFMIS, but in practice, they were awaiting funding at the CBK Internet Banking (IB) level at the time of reporting.

Source: Turkana County Treasury

The sub-programmes with the highest levels of budget implementation based on absorption rates were the Turkana Education and Skill Development Fund in the Department of Education Sports and Social Protection, at 100 per cent, the Youth and Women Fund in the Department of Trade, Gender and Youth Affairs, at 100 per cent, and the Emergency Fund in the Department of Finance and Economic Planning, at 100 per cent of budget allocation.

3.43.13 Accounts Operated Commercial Banks

The County government operated 16 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.43.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget affected the timely preparation of the budget implementation report. The report was received on 12th August, 2024.
2. High level of pending bills which amounted to Kshs.749.86 million as of 30th June 2024. Further, there was non-adherence to the payment plan for the pending bills by the County Treasury.
3. High wage bills accounted for 35.9 per cent of the County's total revenue in FY 2023/24, which is above the ceiling provided by law.
4. Use of manual payroll. Personnel emoluments amounting to Kshs.132.62 million were processed through manual payroll, accounting for 2.4 per cent of the total payroll cost. Manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
5. Use of commercial bank accounts for operations contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The commercial bank accounts are for funds, Grants, the Emergency Response Program and the Lodwar Referral Hospital.
6. High expenditure on domestic travel at kshs. 943.44 million which should be rationalised.

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with the timelines prescribed in Section 166 of the PFM Act, 2012.*
2. *The county leadership should address the situation of pending bills to ensure that genuine bills are paid promptly during the financial year. Further, compliance with the payment plan should be enforced.*
3. *The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
4. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Analysis of expenditure- by Department shows that the Department of Promotive and Preventive Health recorded the highest absorption rate of development budget at 100 per cent, followed by the Department of Sports, Youth Development at 98 per cent. The County Assembly and the Department of Education and Vocational Training had the highest percentage of recurrent expenditure to budget at 100 per cent. In contrast, the Department of Energy, Environment, Climate Change and Natural Resources had the lowest at 61.1 per cent.

Expenditure on environmental conservation services sub-programme was above approved budget and should be investigated and appropriate action taken by the County Treasury.

Overall, the County's expenditure exceeded the exchequer issues. This is attributed to the country's spending part of the Kshs.603.91 million unspent cash balance in the Special Purposes Account from the previous financial year 202/23, which was not swiped into the County's CRF account.

3.44.12 Accounts Operated Commercial Banks

The County government operated 20 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.44.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. The County Treasury's late submission of financial reports to the Controller of Budget affected the timely preparation of the budget implementation report, which was received on August 5th.
2. High wage bills accounted for 39 per cent of the County's total revenue in FY 2023/24, which is above the ceiling provided by law.
3. Use of manual payroll. Personnel emoluments amounting to Kshs.335.67 million were processed through manual payroll, accounting for 6.1 per cent of the total payroll cost. Manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
4. The county government uses commercial bank accounts for operations contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya.

5. Low expenditure on development programmes which was 29.6 per cent of total expenditure.

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with the timelines prescribed in Section 166 of the PFM Act, 2012.*
2. *The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
3. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
4. *The County Government should ensure that bank accounts are opened and operated at the Central Bank of Kenya as the law requires. However, imprest bank accounts for petty cash and revenue collection accounts are exempted.*
5. *The County should ensure expenditure on development programmes is within the provision of the law.*

Based on absorption rates, the sub-programmes with the highest implementation levels were Land Survey and Mapping in the Department of Lands at 113.35 per cent, Resource mobilization in the Department of Finance at 100 per cent, Budget expenditure management in the Department of Finance at 100 per cent, and Human Resource Management Development at 99.17 percent of budget allocation.

3.45.13 Accounts Operated Commercial Banks

The County government operated a total of 5 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.45.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB within the timelines provided in law, which is against the requirement of Section 168 of the PFM Act, 2012. The reports for the Bursary Fund and Trade and Enterprise Fund were not submitted to the Controller of Budget.
2. High level of pending bills, which amounted to Kshs.952.15 million as of 30th June 2024 (the additions during the year excluded).
3. High wage bills accounted for 46.9 per cent of the County's total revenue in FY 2023/24, which is above the ceiling provided in law.
4. Use of manual payroll. Personnel emoluments amounting to Kshs.56.3 million were processed through the manual payroll, accounting for 2.2 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
5. The County government uses commercial bank accounts for operations contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank

accounts be opened and maintained at the Central Bank of Kenya. The commercial bank accounts are for Trade and Enterprise, Education, Sports and FIF funds.

6. Low expenditure on development activities, which accounted for 21.2 per cent of total expenditure in FY 2023/24.

The County should implement the following recommendations to improve budget execution:

1. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
2. *The county leadership should address the situation of pending bills to ensure that genuine bills are paid promptly in the next financial year. Further, compliance with the payment plan should be enforced.*
3. *The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
4. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
5. *The County Government should ensure that bank accounts are opened and operated at the Central Bank of Kenya as the law requires. However, imprest bank accounts for petty cash and revenue collection accounts are exempted.*
6. *The County government should prioritise expenditure on development activities to meet the legal requirement of 30 per cent of total expenditure, as provided in the PFM (County Governments) regulations, 2015.*

In FY 2023/24, the County generated a total of Kshs.164.95 million from its revenue sources, inclusive of FIF. This amount represented an increase of 252.9 per cent compared to Kshs.46.75 million realized in a similar period in FY 2022/23 and was 110 per cent of the annual target and 1.8 per cent of the equitable revenue share disbursed during the period.

The increase in OSR can be attributed to the enhanced revenue collection measures and other reforms carried out in the last two years.

The revenue streams which contributed the highest OSR receipts are shown in Figure 178.

Figure 178: Top Streams of Own Source Revenue in the FY 2023/24

The highest revenue stream, Kshs.74.5 million, was from FIF, contributing 45.2 per cent of the total OSR receipts during the reporting period.

3.46.3 Exchequer Issues

The Controller of Budget approved withdrawals of Kshs.10.96 billion from the CRF account during the reporting period, comprising Kshs.3.2 billion (29.2 per cent) for development programmes and Kshs.7.76 billion (70.8 per cent) for recurrent programmes. Analysis of the recurrent exchequers released in FY 2023/24 indicates that Kshs.4.73 billion was released towards Employee Compensation and Kshs.3.03 billion for Operations and Maintenance expenditure.

Expenditure on development programmes represented an absorption rate of 83.4 per cent, while recurrent expenditure represented 94.2 per cent of the annual recurrent expenditure budget.

3.46.5 Settlement of Pending Bills

In the FY 2023/24, the County reported a stock of pending bills amounting to Kshs.2.33 billion, comprising of Kshs.1.32 billion for recurrent expenditure and Kshs.1.0 billion for development activities. They consisted of Kshs.118.12 million for recurrent expenditure and Kshs.126.61 million for development programmes. Therefore, as at the end of the FY 2023/24, the outstanding amount was Kshs.2.09 billion.

The County Assembly reported a nil outstanding pending bill as of 30 June 2024.

3.46.6 Expenditure by Economic Classification

3.46.7 Expenditure on Employees' Compensation

In the FY 2023/24, expenditure on employee compensation was Kshs.4.73 billion, or 42.5 per cent of the available revenue, which amounted to Kshs.11.14 billion. This expenditure represented an increase from Kshs.4.48 billion reported in a similar period in FY 2022/23. The wage bill included Kshs.1.78 billion paid to health sector employees, translating to 37.7 per cent of the total wage bill. The increase in wage bill is partly attributed to the introduction of a housing levy at 1.5 per cent of an employee's gross salary with a matching contribution being made by the employer.

Figure 179 shows the trend of personnel expenditure as a percentage of total revenue from FY 2017/18 to FY 2023/24.

The sub-programmes with the highest implementation levels based on absorption rates were Decentralized services in Public Service, Special programs, and County Administration, at 100 per cent, Human Resources Development and Infrastructure development in Education, Social Welfare, and Family Welfare, at 100 per cent, and Health Promotion in the Health department, at 100 per cent.

3.46.13 Accounts Operated Commercial Banks

The County government operated a total of 15 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.46.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. There was a high level of pending bills, which amounted to Kshs.2.09 billion as of 30 June 2024.
2. High wage bills accounted for 42.5 per cent of the County's total revenue in FY 2023/24, which is above the ceiling provided by law.
3. Use of manual payroll. Personnel Emoluments amounting to Kshs.622.62 million were processed through manual payroll, accounting for 13 per cent of the total payroll cost. Manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
4. Delay in submission of expenditure report to the Controller of Budget. The County Executive forwarded the returns on 08 August 2024.
5. High expenditure on domestic travel at Kshs.379.83 million

The County should implement the following recommendations to improve budget execution:

1. *The County Leadership should address the situation of pending bills to ensure that genuine bills are paid promptly as a first charge.*
2. *The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
3. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
4. *The County Executive should forward accurate expenditure returns in time to facilitate timely reporting to Parliament and County Assemblies by the Controller of Budget.*
5. *The county should minimize expenditure on travelling by holding activities within the county headquarters.*

Based on absorption rates, the sub-programmes with the highest implementation levels were General Administration, planning, and Support Services in the Department of County Public Service, ICT, and Decentralized Units at 99 per cent, General Administration and Planning in the Department of County Executive at 96 per cent, and Crop Development and Management in the Department of Agriculture and Irrigation at 94 per cent of budget allocation.

3.47.13 Accounts Operated Commercial Banks

The County government operated a total of 4 accounts with commercial banks. This is contrary to Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015, which requires that County government bank accounts be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection bank accounts.

3.47.14 Key Observations and Recommendations.

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget affected the timely preparation of the budget implementation report. The report was received on 5th August 2024.
2. Own-source revenue under performed at Kshs.185.2 million against an annual target of Kshs.230 million, representing 80.6 per cent of the annual target.
3. High level of pending bills, which amounted to Kshs.518.08 million as of 30th June 2024. Further, there was non-adherence to the pending bills payment plan by the County Treasury.
4. Use of manual payroll. Personnel emoluments amounting to Kshs.138.75 million were processed through the manual payroll, accounting for 4.7 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
5. The wage bill is above the recommended 35 per cent, contrary to the PFM Act. It is currently at 43.2 per cent of the available revenue of Kshs.6.84 Billion.
6. Law expenditure on the development programmes which accounted for 22.9 per cent of total expenditure.
7. High expenditure on domestic travel at Kshs.585.20 million.

The County should implement the following recommendations to improve budget execution:

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with the timelines prescribed in Section 166 of the PFM Act, 2012.*
2. *The County should address its own-source revenue performance to ensure the approved budget is fully financed. Appropriate austerity measures should be implemented to ensure expenditure commitments are aligned with available revenue.*
3. *The County leadership should address the situation of pending bills to ensure that genuine bills are paid promptly in the next financial year. Further, compliance with the payment plan should be enforced.*
4. *The Government requires that salaries be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, strict compliance with the approved staff establishment should be maintained.*
5. *The County Leadership should develop strategies to ensure the wage bill is within the legal limit of 35 per cent of total revenue as provided under Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
6. *The County should prioritise expenditure on development to ensure it is inline to provision of the law.*
7. *The County should minimize travel by holding activities within the county headquarters.*

4. KEY CHALLENGES AND RECOMMENDATIONS

4.1. Introduction

This section highlights the issues which adversely affected budget implementation and reporting in FY 2023/24 and includes appropriate recommendations to address the challenges. The cross-cutting challenges included:

4.2. Failure by the National Treasury to disburse the June 2024 equitable share of revenue to County Governments

The County Allocation of Revenue Act 2023 and the Disbursement Schedule show the allocation of the equitable share of revenue raised nationally to each county government and when the amounts are disbursed. As of the end of FY 2023/24, county governments were yet to receive the June 2024 disbursement of Kshs.30.83 billion from the National Treasury. Further, the National Government failed to transfer the conditional grants provided in the County Government Additional Allocations Act 2024, which included the conditional grant for the transfer of library services of Kshs.162.85 million, allocation for court fines of Kshs.108.66 million, and allocation for mineral royalties of Kshs.2.93 billion.

The failure to disburse the entire equitable share of revenue to county governments affected budget implementation and resulted in unsettled expenditure commitments. This further led to low budget absorption and pending bills.

The Controller of Budget urges the National Government to develop and implement revenue-raising measures to ensure timely disbursements to county governments as per the approved disbursement schedule.

4.3. Under-Performance of Own-Source Revenue Collection

Article 209 (3) of the Constitution allows County Governments to impose property rates, entertainment taxes and any other tax that a county is authorised to charge by an Act of Parliament.

During the reporting period, County governments generated a total of Kshs.58.95 billion from their own-source revenue (OSR), which was 72.8 per cent of the annual target of Kshs.80.94 billion. County governments which recorded low performance of own source revenue were Nyandarua at 42.1 per cent, Machakos at 46.5 per cent, Mandera at 50.8 per cent, Nyamira at 53.8 per cent, Bungoma at 55.8 per cent, Kajiado at 56.1 per cent, and Busia at 56.9 per cent of the annual targets.

The underperformance of own-source revenue collection implies that county governments did not implement all planned activities due to budget deficits.

The Controller of Budget advises county governments to develop revenue enhancement strategies and set realistic and achievable targets for the next financial year to avoid accumulating pending bills.

4.4. Low Expenditure on Development Budget

Section 107(2) (b) of the Public Finance Management (PFM) Act, 2012 provides that over the medium term, a minimum of thirty per cent of the County Government's budget shall be spent on development expenditure.

The County governments spent Kshs.109.23 billion on development activities, representing an absorption rate of 57.5 per cent of the annual development budget of Kshs.189.93 billion. The expenditure on development activities was 24.4 per cent of total spending in FY 2023/24.

An analysis of expenditures on development activities shows that 38 county governments did not meet the 30 percent threshold provided in law. These included Nairobi City at 10.3 percent, Kisii at 13.7 percent, Mombasa at 16.2 percent, Kisumu at 17.5 percent, Taita-Taveta at 18.6 percent, and Kiambu at 19.4 percent.

The Controller of Budget recommends that county governments develop and implement strategies to enhance development budget expenditures, achieve the 30 per cent threshold provided in law, and improve their citizens' living standards.

4.5. High Pending Bills

Regulation 41 (2) of the Public Finance Management (County Governments) 2015 states that “*debt service payments shall be a first charge on the County Revenue Fund and the Accounting Officer shall ensure this is done to the extent possible so that the County government does not default on debt obligations*”. Further, Regulation 55(2) b of the Public Finance Management (County Governments) 2015 requires that the finalised and signed contracts are budgeted before an accounting officer of the County government entity considers new projects.

As of 30th June 2024, county governments reported outstanding pending bills of Kshs.181.98 billion. Nairobi City County reported the highest pending bills at Kshs.118.44 billion. Other county governments with high pending bills were Kiambu at Kshs.6.49 billion, Mombasa at Kshs.4.44 billion, Machakos at Kshs.4.20 billion, Bungoma at Kshs.3.52 billion, and Kisumu at Kshs.3.15 billion.

The Controller of Budget advises county governments to settle the eligible pending bills as a first charge on the budget in line with the law and prepare credible budgets with realistic revenue targets. Further, the National Treasury should promptly ensure equitable revenue share is transferred to county governments per the Approved Disbursement Schedule.

4.6. High Expenditure on Personnel Emoluments

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015, limits the county government’s expenditure on wages and benefits to 35 per cent of the county’s total revenue.

Overall, County Governments spent Kshs.208.84 billion on personnel emoluments, which accounted for 47 per cent of the total expenditure of Kshs.446.76 billion and 42.6 per cent of the realised revenue of Kshs.492.47 billion in FY 2023/24. This expenditure increased from Kshs.195.09 billion incurred in FY 2022/23. The Controller of Budget notes that personnel expenditure by only three counties was within the 35 per cent ceiling, namely, - Kilifi, Tana River and Narok. Further analysis of the personnel emoluments shows that Kshs.15.89 billion was processed manually and paid outside the government payroll system.

The CoB recommends that County Governments ensure that expenditure on personnel emoluments is contained at sustainable levels and in compliance with Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015. Further, county governments should fast-track the acquisition of Unified Personnel Numbers for their staff and ensure payroll is processed through the prescribed government system.

4.7. Delay in Submission of Financial and Non-Financial Reports to the Controller of Budget

County Governments must prepare and submit financial and non-financial reports one month after the end of each quarter in accordance with Sections 166(4) and 168 (3) of the PFM Act, 2012. Further, Section 16 of the Controller of Budget Act 2016 requires Accounting Officers to cooperate with the Controller of Budget to enable the Controller of Budget to carry out their functions per the Constitution and any other law.

Accounting Officers are required to respond promptly to any inquiry made by the Controller of Budget and furnish the Controller of Budget with periodic reports as to the status of management of the budget and public funds in respect of the question raised within such period as may be prescribed by the Controller of Budget, and provide any other information that the Controller requires. In line with the above requirement, the Controller of Budget issued a letter to County Treasuries requesting the submission of financial and financial reports for the period under review by 15th July 2024.

Despite the above legal provisions, county governments did not submit the financial and financial reports within the recommended timeline, which led to a delay in finalising this County Budget Implementation Review Report. Twenty county governments submitted their reports after 1st August 2024: Baringo, Garissa, Kakamega, Isiolo, Meru, Nandi, Turkana, Embu, Mombasa, Uasin Gishu, Nakuru, Homa Bay, Kericho, Kilifi, Tana River, Makueni, Nyeri, Kisumu, Trans Nzoia, and West Pokot.

Consequently, county governments must implement mechanisms to ensure adherence to the legal provisions on submitting quarterly financial and non-financial reports as provided in law.

4.8. Use of Commercial Bank Accounts

Regulations 82(1)(b) of the PFM (County Governments) Regulations, 2015 requires County government bank accounts to be opened and maintained at the Central Bank of Kenya. The only exemption is for imprest bank accounts for petty cash and revenue collection accounts.

As shown in Chapter Three of this report, the OCoB noted that the County governments used commercial bank accounts to operate the established public funds and other operational accounts contrary to Regulations 82(1) (b) of the PFM (County Governments) Regulations, 2015.

The Controller of Budget advises the County Executive Committee Members responsible for Finance to follow up and ensure compliance with the law by maintaining bank accounts at the Central Bank of Kenya for accountable spending.

4.9. Excessive Expenditure on Travelling

During the financial year, the Controller of Budget noted excessive expenditures by county governments on travel, which may be wasteful, amounted to Kshs.17.60 billion, comprising Kshs.15.28 billion on domestic travel and Kshs.2.32 billion on foreign travel.

The county governments that reported the highest expenditure on domestic travel were Turkana, at Kshs.943.44 million; Nairobi City, at Kshs.861.57 million; Machakos, at Kshs.652.76 million; West Pokot, at Kshs.585.2 million, and Nakuru, at Kshs.544.13 million. Further, an analysis of foreign travel shows that county governments with the highest expenditure were Nairobi City at Kshs.328.33 million, Machakos at Kshs.148.68 million, Kitui at Kshs.128.4 million, Kericho at Kshs.105.8 million and Nakuru at Kshs.102.89 million.

County governments are advised to minimize travel expenditures by holding activities within the headquarters and allocate the funds to key development programmes.

5. CONCLUSION

This County Budget Implementation review report is prepared in fulfilment of Article 228(6) of the Constitution of Kenya 2010 and Section 9 of the Controller of Budget Act 2016, which requires the CoB to submit each report on the implementation of the budgets of the National and County governments every four months.

The report provides information on the county government's budget implementation. It provides an overview of the budget implementation status during FY 2023/24, analyses the revenue outturn and expenditure against annual targets, and identifies the County governments' critical challenges during the review period.

In the reporting period, own source revenue collection by County governments amounted to Kshs.58.95 billion and translated to 72.8 per cent of the annual target of Kshs.80.94 billion. This improved performance compared favourably with the Kshs.37.81 billion generated in the previous financial year. While the progress is noted, it remains below the expected target for the reporting period. The equitable share of revenue raised nationally and transferred to the forty-seven county governments was Kshs.354.59 billion, representing 92 per cent of the approved equitable share in the County Allocation of Revenue Act of 2023 of Kshs.385.42 billion. The National Government transferred Kshs.35.97 billion as additional allocations/conditional grants to county governments, while the cash balance from FY 2022/23 was Kshs.42.96 billion. Overall, the County governments had a total of Kshs.492.47 billion available for spending in FY 2023/24 against an aggregated budget of Kshs.562.75 billion.

The combined County government expenditure amounted to Kshs.446.76 billion, representing an absorption rate of 79.4 per cent of the aggregated annual budgets of Kshs.562.75 billion. Recurrent expenditure was Kshs.337.53 billion, representing 90.5 per cent of the annual recurrent budget of Kshs.372.82 billion. Development expenditure amounted to Kshs.109.23 billion, representing an absorption rate of 57.5 per cent of the annual development budget of Kshs.189.93 billion.

The key challenges that adversely affected budget implementation in FY 2023/24 were the National Treasury's non-disbursement of the June 2024 equitable share of revenue, the underperformance of own-source revenue collection, low expenditure on development programmes, a high level of pending bills, high expenditure on personnel emoluments, a delay in submission of financial and non-financial reports to the CoB, the use of commercial bank accounts, and excessive expenditure on travel costs.

The report provides appropriate recommendations to address the identified challenges. The CoB recommends that each of the forty-seven county governments implement the recommendations per Section 130(d) and 149(3a) of the Public Finance Management Act of 2012 to enhance effective budget execution and achieve the desired budget goals.
